We truly believe to continue this cooperation in next period.

The Mediterranean city with a Middle-European soul - this is how we like to describe Rijeka, the biggest Croatian port, economic, university and cultural centre with 150,000 inhabitants and a steady growth. It is a city of rich historical, natural and cultural heritage, surrounded by most developed tourist areas in Croatia.

It is also a city in which sport in general and in particular the car racing has deep roots. A number of sports enthusiasts, professionals and volunteers, overjoyed with the fact to have the **Croatia Rally** back to our Region, will make their best efforts in order to provide the best conditions for this event. The best confirm is many of spectators which visit last year event, specially describe Preluk like place with very long tradition in car races. I truly hope that all of you will enjoy the competition – let the best win! And I am sure that all octane's fans from here and abroad will have a great time.

Mr. Vojko Obersnel, Mr.Sc.
Mayor of the City of Rijeka

1.3 Event overview

The “38th Croatia Rally” represents the successor of the oldest, most difficult and most popular car racing event in the Republic of Croatia. The event also has the reputation as being one of the best organized events in this part of Europe.

Event status “European Rally Championship”, was achieved only in 1991, when FIA accepted a multi-year nomination of this rally, so that in June 1992, with the ordinal number 19, the first “European Delta” was held, coefficient 2.

This was the first international sporting event that was entrusted to Croatian organizers in any sporting discipline, after the independence of Croatia, as well as free, independent and autonomous state.

This event as well as all previous (1-36) has been organized by the Auto Klub Delta from Zagreb, that with their hard-working in cooperation with the ASN could make possible the growing up in rank of this competition, which now enjoys.

The first rally event of which the 38th Croatia Rally 2011 is successor, held in September 1974, and it was scored for the (in that period regional) Croatian Championship. The start of the Rally was in Delnice and the 283 km long route led the drivers through the Gorski Kotar and Lika regions to the finish in Rijeka., with one slalom stage and two special stages: Platak (8.2km of tarmac) and Učka (8km of gravel). The first ever winner of the Rally was Tomislav Markt a member of the INA team. Three years passed before the rally became a part of the Yugoslav National Championship. The start was in Preluka near Opatija, and the 690 km long route with five special stages took the competitors through Ogulin, Delnice, Duga Resa, Sisak to the finish in Zagreb. A total of 44 crews started the event and Aleš Pušnik from Slovenia was the winner of the event.

A further nine long years had to pass before the Croatia rally made its next step; this time on the international scene. Namely, the 13th “Delta” held in 1986 was listed in the calendar of FIA as an international invitation competition. It had total of 75 crews from Italy, Austria, Germany, the Czech Republic, Slovakia, Slovenia and Croatia. This year will be also remembered for the first nomination for the European Championship. The route of the Rally was 607,55 km long and was split into two legs and consisted of 18 road sections and 17 special stages in six different locations. This Rally will also remembered as the only one to have been won by a female crew; the Slovenian crew of Romana Zrnc as driver and Špela Kožar as co-driver in their Renault 11 turbo.

After that, the whole event was moved and definitely remains until 2010. on the attractive and demanding paths in surrounding areas of Zagreb, mountain Medvednica, areas of the City of Samobor, Žumberak, Plešivica and the Croatian Zagorje region.

For the Organizers of the event, the most difficult time was during the war in Croatia. Despite the many difficulties, the organization was flawless and the rally experienced a dizzying rise, written in the history of European Rally Championship.

Namely, this first European year 1992 (won by Šepetavc – N.Krlić from Croatia) and the next 1993 year, had the coefficient 2, immediately after, year 1994, had the coefficient 5 (won by N. Pulić – D.Devunić from Croatia), and already in 1995 year, the rally had the prestigious coefficient 10 (won again by N. Pulić – D.Devunić from Croatia).

Thanks to acquaintances and the ever growing reputation of the Rally and it's Organizer, a growing number of international drivers of the highest quality have appeared at the rally (Enrico Bertone three times European Champ amongst others) and the event has maintained its high rank of organizing throughout the years and FIA observer's reports only confirm this fact.

With a good organization that was provided by a long-standing organizer of the Rally, AK Delta from Zagreb, and especially good relations of the CCKF with the responsible FIA officials that have recognized in the “INA Croatia delta rally” a project worthy of support, at the end of the year 2006 the long awaited news arrived. The International automobilistic federation FIA nominated the event in the highest European status – European Championship.

Unfortunately, 2010 The AK Delta has lost the support of its major sponsors and partners, and the ASN (HAKS) make a decision about relocating this event to the City Rijeka. Organizations accepted the ASN (HAKS), in cooperation with all the 10 member clubs from Car Associations Primorsko goranska County (Regional federation). This year, ASN (HAKS) gives confidence to organize this rally to Auto Klub MRC Sport from City Rijeka.

20. LIST OF USEFUL FACTS AND SERVICES

20.1 Climate

The climate of Croatia varies from Mediterranean along the Adriatic coast to continental, inland. The coastal areas have hot, dry summers and rainy winters yet the inland areas are cold in winter and warm in summer. The coast benefits from refreshing winds in the summer and the mountain ranges shield them from bitter winds in the winter. Sea temperatures never fall below 10 degrees in the winter and in August it can be as high as 26 degrees, due to warm currents flowing north up the Adriatic coast. In spring and early summer a sea breeze keeps the temperature down along the coast. This breeze that usually starts around 9am is perfect for sailing. The islands benefit from up to 2715 hours of sunshine a year, the sunniest being Hvar. Winter temperatures range from -1 to 30°C in the continental region, -5 to 0 °C in the mountain region and 5 to 10 °C in the coastal region. Summer temperatures range from 22 to 26 °C in the continental region, 15 to 20 °C in the mountain region and 26 to 30 °C in the coastal region.
