1. WELCOME

1.1. Guanajuato Governor

Winter is over. Welcome to Mexico!

It is my absolute pleasure and privilege to welcome you all to the 2011 Rally Guanajuato México in our beautiful country.

As you may know, Mexico is the 11th largest economy in the world, and our great state of Guanajuato is the fastest-growing region in the country. This allows us the liberty of ever-increasing strategic investment in development and infrastructure to ensure our rally remains a trend-setter on the global arena.

Ironically, Guanajuato is also one of the oldest established regions in Mexico, and has been a powerhouse in culture and economy for 500 years. The cobbled streets and tunnels where state-of-the-art rally cars now roar have witnessed the evolution of trade, art, transportation, industry, technology, and tourism of the Western World.

With our roots strictly anchored in our history, we nevertheless are always striding towards the future, building the foundations of what our new generations are even now beginning to build. With a very young population, the rate of change, the adoption of technology and the evolution of social trends are inevitable. Obstacles are being analysed and dispatched, new ideas are tested and improved upon and change has become our rallying cry.

It is in that spirit of driven growth and pride of purpose that we welcome the FIA World Rally Championship, the most exciting form of motorsport on the planet.

Welcome to our home. *Nuestra casa es su casa.*

Lic. Juan Manuel Oliva Ramírez

Governor of the State of Guanajuato

1.2. ASN President

México, and the wonderful State of Guanajuato, will once again be in the spotlight of the world's sporting stage as we host the 2011 FIA World Rally Championship in the municipalities of Silao, León and Guanajuato.

Accomplishing an event of this magnitude is no easy task and requires the mobilization and commitment of the hundreds of people involved in this adventure. The organizers certainly do their part, but there are others we need to recognize: The competitors who come to our country every year to put on a breathtaking show and the thousands of fans that visit the stages and cheer them on.

All this could not be accomplished without the support of the Guanajuato State Government -led by its Governor, Mr Juan Manuel Oliva Ramirez- who have always backed the rally so that the event can showcase this beautiful region to the world. My heartfelt thanks go to all of them.

We thank you all for coming and hope we surpass all your expectations.

José Abed

OMDAI-FIA President

1.3. Introduction

2011 marks our 7th participation as a round of the FIA World Rally Championship.

Every year before, we have been very careful to assess our performance, to fine-tune our successful ideas and discard what doesn't work. This one has been no different.

We will continue to support the centralized format, short liaison stages and compact route that make Rally Mexico an efficient and economic event, while striving to enhance the competitive aspects of the event, such as longer and more demanding stages.

We will also continue to inject the Championship with our own particular brand of colour and atmosphere with our ceremonial start and finish ceremonies and the insuppressible spirit of the Mexican hospitality.

Our recent experiment with the Street Stage will remain in the itinerary, as it has become a popular favourite, and we will implement some changes to enhance the appeal of the Super Special Stage held at the León Racing Circuit. The stage will now be run at night, to allow spectators enough time to return from the day's stages and be present for an even more impressive show.

This will necessitate further changes to the itinerary, in the form of a new time slot for the day's flexi-service. Instead of taking place at the end of the day, it will now be featured earlier in the afternoon, right after the Special Stages and before the Super Special Stage. We are confident these changes will result in a better experience for all parties.

2011 Rally Guanajuato México will be host to World Rally Cars and Super 2000 cars, a very exciting mix for whom we have reserved a very special surprise: the very first Street Special Stage in the WRC in Guanajuato City. You won't want to miss that.

Kindest regards,

Organising Committee

1.4. History

Rally Guanajuato México made its debut in the FIA World Rally Championship in 2004, running successfully as the third round of the series. Since 2004, the event has been set as the first full gravel event of the season except for 2009 when the event was run as “Rally of Nations” during the FIA leap year calendar.

1.6. Rally México 2010 Edition

Sebastien Loeb and the Citroën Total World Rally Team duly claimed another haul of maximum WRC points on the second round of the championship. "I had a good lead today and was not going to take any risks with that when I started first on the road," said Loeb. "I was just breezing through the last couple of stages trying to keep my concentration."

The gripping tussle for second position eventually ended in Petter Solberg's favour. He and Sebastien Ogier began the last day of competition separated by just 2.7s and the contest was only decided to the Norwegian's advantage on the final super special stage when he set the fastest time. It marked a fitting end to a terrific three-day battle.

Ford team orders dictated that Jari-Matti Latvala was ordered to slow down on the penultimate stage and enable BP Ford Abu Dhabi World Rally Team colleague Mikko Hirvonen to move up to fourth overall and claim two extra FIA Drivers' Championship points in his quest for a maiden world title.

The Blue Oval had been beaten fair and square over the Mexican gravel by Citroën, although the BP Ford Abu Dhabi World Rally Team maintained a six-point lead over the Citroën Total World Rally Team in the FIA World Manufacturers' Championship.

Norwegian Henning Solberg confirmed an excellent sixth overall for the Stobart M-Sport Ford Rally Team after setting several impressive stage times on day two and Argentina's Federico Villagra finished in seventh place and gave the Munchi's Rally Team its first points of the season.

Spain's Xavier Pons produced a scintillating time in the 19th special stage and that was sufficient to push him back above Czech driver Martin Prokop and into an S-WRC lead he had lost with clutch problems on Saturday. Pons finished eighth overall.

The S-WRC success for Pons was the fifth in the relatively short lifespan of the new Ford Fiesta S2000 – it achieved outright victories in Monte Carlo and Qatar on its debut weekend in January and took outright victories in the Kuwait International Rally and the Rally Torrié in Portugal on the same weekend.

Portugal's Armindo Araújo cruised through the remaining three stages on Saturday to claim a comfortable win in the P-WRC category and the final place in the overall top 10. Once Japan's Toshi Arai had lost considerable time changing a damaged wheel on Saturday, it was plain sailing for the defending champion, who snatched the series lead in his Mitsubishi Lancer Evolution IX.

5. SERVICE PARK

5.1. Location

Service for all three days of Rally Guanajuato México will take place at Rally Campus in the Poliforum Expo Center and León Fairgrounds.

The GPS reference for the service park is:

21° 06.582' North
101° 39.440' West

The service park for WRC and SWRC Crews is a covered, unobstructed area measuring 18,144 square meters and has power outlets (110 V and 220 V upon request) and other amenities. The general height to the ceiling is 11 meters and the main lobby has a load capacity of five metric tons per square meter on a concrete surface. It is fully air-conditioned.

The service park for other entrants is located outside the main Expo Center over a hard-leveled surface.

Competitors wishing to use a joint service area with another competitor must inform the organizers by **Thursday February 9th, 2011** by completing the Joint Service Request form.

All teams with service space indoors will be required to use a ground protector for each of the vehicles serviced.

It is recommended to send a service area and/or workshop layout to place containers according to requirements, thus avoiding extra use of cranes. This information should be e-mailed to imports@rallymexico.com or by fax to +52 (55) 5570 3824 prior to the arrival of the containers at the service park.

NOTE: A 6-meter “no visual obstruction zone” will be implemented at the front of the Manufacturer WRC teams’ and other WRC teams’ service areas. No containers, non-competing vehicles or other divisions higher than 1 meter will be permitted in this area. This improves greatly the visual impact for spectators. Please refer to the Service Park diagram.

We kindly ask WRC teams to take this zone into account when designing their individual service areas.

5.2. Service Areas

Part of the agreement with hotels allows for special rates for teams running the Rally México in 2011.

Please contact the organization for your preferred rate code and then contact the hotel of your choice directly.

- **León:** The city of León is the epicenter of the rally and where all activities, excluding the start ceremony, take place. Although there are many hotels in León, these are the ones that get booked up early.
- **Guanajuato City:** Guanajuato is a colonial city located approximately 45 minutes from León and very close to Friday's stages. It has many hotels and is a very good place to stay and combine tourism with the rally.
- **Silao:** Silao is a small industrial city located approximately 30 minutes from León. From here you can easily access most of Saturday's stages. Silao does not have many hotels so reservations should be made early.

FIA WRC Permanent Credential Holders are exempt from applying for accreditation. They must however inform the Press Officer and FIA Press Delegate, by fax or email, of their intention not to attend the event at least five days before the date of scrutineering. In the case where media outlets holding permanent credentials wish to apply for one or more single event passes, points 5.2 a), b), c), e) and h) must be respected.

18.1.5. Accreditation Principles, Documentation and Photographers

A) Principles

- a) A maximum of three representatives (journalists and/or photographers) per outlet or agency will be accredited.
- b) A publication must have a circulation whose size and quality fulfill the criteria of the FIA, and be on sale to the public. Club and internal magazines cannot be accredited as media. Accreditation decisions are based on the relative 'media market' in the country of the applicant. The usual minimum circulation for a national weekly or monthly publication is 20,000 copies, and for a national daily 50,000 copies.
- c) Advertising, public relations, marketing or sponsor representatives will not be accredited as media. Requests from such representatives must be addressed to North One Sport.
- d) Private teams with seeded drivers may apply for accreditation for one media representative directly from the FIA WRC Press Delegate.
- e) The central and local offices of the major international press agencies (AP, AFP, Reuters, ANSA, UPI, DPA, LUSA, BELGA, JIJI, KYODO, EFE, Press Association, SAPA, Australian AP, APA etc), will always be accredited by the FIA.

B) Documentation to be submitted with each request

- a) A formal request for accreditation written on the publication's official letterhead, signed by the head of the publication or the Chief Editor. Requests signed by clerical staff will not be accepted.
- b) A completed accreditation form.
- c) The name(s) of the representative(s) who will be covering the event.

- d) A photocopy of the official National Press Card(s) (where applicable) of the representative(s) who will be covering the event.
- e) The job title(s) of the representative(s).
- f) Information about the publication, such as circulation and frequency.
- g) An original copy of the publication.
- h) Photocopies or originals of material published about the 2010 Rally México or FIA World Rally Championship.
- i) A contact fax number (failing this point will cause the publication not to be accredited).
- j) A formal undertaking from the editor to publish a report related to Rally México and an indication of when this report will appear.
- k) Requests from freelancers must be accompanied by a list of contributions published during the last 12 months, specifying the names of the publications and the numbers and dates of the issues.

Note: f), g) and j) do not apply to major international press agencies. h) does not apply to publications applying for the first time.

Applications which are late, incomplete or sent by fax or email (excluding North One Sport applications) will not be considered.

The application for a pass must include written confirmation that neither the publication or agency, nor the journalist or photographer to whom the credentials may be allocated, have or will apply for additional FIA passes for any other purposes, including journalism for television and radio networks.

C) Photographers' accreditation

National press photographers

Publications or agencies applying for single round accreditation must supply evidence of independent coverage of a minimum of 15 pictures per pass issued for the 2010 Rally México. If not previously accredited, Corona Rally México will submit the application for discussion with the FIA WRC Press Delegate.

In the case of an agency, the pictures must have been regularly sold to publications matching the FIA criteria at the normal commercial rate. For publications, it must be demonstrated that pictures published are the original work of the publication's accredited photographer.

The FIA limits to 30 the number of photographer passes issued for national press.

International press photographers

Publications or agencies applying for single round accreditation must supply evidence of independent coverage of a minimum of 15 pictures per pass issued at each event where they have been accredited the previous year.

In the case of an agency, the pictures must have been regularly sold to publications matching the FIA criteria at the normal commercial rate. For publications, it must be demonstrated that pictures published are the original work of the publication's accredited photographer.

The FIA limits to 30 the number of press photographer passes issued for international press.

Commercial / promotional national and international photographers

Commercial and promotional photographers may apply for accreditation through North One Sport. A fee will be levied on a pro-rata basis for single event accreditation.

18.2. Media Center

The Media Center, Accreditation Office and Manufacturers' Room will be located in the Expo-Feria building in Rally Campus. The Media Center will be located in the same building as 2010.

Please refer to point 2.3 of this Guide for Media contact information.

Only accredited media will be afforded access to the Media Center.

18.3. Telecommunications

Analogue, ADSL and WI-FI are available (ISDN is not supported in México) and technicians will be available during the event to assist if necessary.

GSM and 3G are widely available in México, but please check with your national provider about the availability of your own roaming service within the country. Do note however, that roaming charges can be considerably more expensive than hiring locally. As a general rule, coverage in the stages, with either a local or GSM mobile telephone, is intermittent.

Courtesy analogue and ADSL lines and WI-FI communications will be available for the media (press room) and photographers (wire sending area) for business use only.

Dialing in México to and from land and mobile phones can be very confusing. Please refer to the dialing table in the General Information section of this guide.

19. PASSES AND PLATES

Passes and Car Passes will be issued by the Organizers to ensure proper access to the Rally Campus areas. A detailed access table will be published in Rally Guide 2.

21. LIST OF USEFUL FACTS AND SERVICES

21.1. México

Our country is the natural link between the United States and Latin America. And, through the signing of 10 trade treaties that grant a preferred access to 31 countries in three continents - among them the North American Free Trade Agreement with the U.S. and Canada, as well as those signed with the European Union, Chile, Brazil and Argentina - México has access to a potential market of more than 860 million consumers and is consolidating itself as one of the most important emerging economies in the world. ([Mexico](#))

21.2. León & Guanajuato

Guanajuato is one of the best-communicated states in México, with a complete network of roads in excellent condition. Its rail network is located in the area of confluence of the main trade routes of the country, and by air it is well connected to the main destinations in México and the United States.

León is the biggest city in the State of Guanajuato, with 1.3 million inhabitants, and is the fifth biggest city in México. In an area of 400 kilometers surrounding the city, there are 50 million people, including the population of México City and the State of México.

León is near three of the most important tourist and colonial cities in México: Guanajuato, a UNESCO World Heritage Site; Dolores Hidalgo, the birthplace of the National Independence, and San Miguel de Allende, one of the most popular tourist and colonial cities visited by foreigners.

Guanajuato City, the capital of the State of Guanajuato and venue for the start of Rally Guanajuato México, is considered to be the most beautiful colonial city in the Americas and owes its fame to rich veins of silver and gold discovered by the Spanish years ago. It is one of the most important cities in the country, both traditionally and culturally. Old world charm lures visitors from around the world, and strolling minstrels, known as "estudiantinas", enrich the medieval atmosphere with music from a bygone era. The extensive underground tunnels and walkways also make Guanajuato a beautifully unique and captivating city. Construction of the Teatro Juárez, most recently the venue for the start ceremony, began in 1873 and it was finally opened in 1903 by President Porfirio Díaz. It is one of the most beautiful theaters in México with a variety of architectural styles.

León's pre-Hispanic legacy can be seen in its architecture, monuments and parks. Founded in 1576, it is now a modern urban center with the necessary infrastructure, public safety, universities, transportation and roads necessary to project this city in the new millennium.

León is well known for its infrastructure and organizational capabilities for any kind of international event. The city not only has the biggest infrastructure for international events within its convention center (CONEXPO), but also offers a wide range of services like theaters, museums, restaurants, recreational centers, hotels, shopping and financial centers beyond comparison in central México.

Its shoe and leather industries are the most important in the country, since it contributes 50 per cent of the total national production. It also has a complete infrastructure of hotel services and of purveyors for the fair and exposition industries. Furthermore, in close proximity to the city via excellent roads, visitors can access historical places like Guanajuato, San Miguel de Allende and Dolores Hidalgo. León is linked directly to other political and economical centers in México via road and air. As a platform to launch commercialization or production strategies, León offers the best infrastructure and unquestionable capacity as tourism, commercial and business center.

21.3. Tips From A to Z

AIRPORTS

It is not possible to take baggage carts out of the arrivals hall at México City airport, although there are porters to assist with luggage. A tip will be expected. It is also wise to reconfirm all flights in advance.

BANKS & CREDIT CARDS

Banks are generally open from 09:00-16:00 hrs Monday to Friday and a few from 09:00-13:00 hrs on Saturday. All international credit cards (Visa, Master Card and American Express) are commonly accepted in major cities (Guanajuato and León).

Most Automatic Teller Machines (ATM) are open 24 hours a day and can be found curbside in banks, some hotel lobbies and shopping centers. Small businesses in small towns will not take credit cards.

Changing Travelers' Checks is best done in the morning, as a number of banks will not accept them after 14:00hrs. A passport is also required. For the most favorable rates, change money through banks.

It is somewhat difficult to exchange European currencies in Guanajuato (including the Euro). The US Dollar is more easily accepted and exchanged.

BARGAINING

Bargaining is common practice in tourist areas where quoted prices can often be double the value of the goods. In smaller towns away from the tourist sites, bargaining is not recommended as it can be seen as a lack of civility.

BEHAVIOUR

Basically it is not difficult to act respectably in México; in general people are friendly and quite informal. As with travel to any foreign country, friendliness and a desire to respect local customs is appreciated.

CLIMATE

The climate is typically tropical, although it varies in the different regions of the country. March is the dry season and normally warm and windy. Occasionally, short tropical rains can be followed by warm sunshine and 30°C temperatures, while the altitude in Guanajuato can see temperatures drop below 15°C at night.

CLOTHING

Although dress code is not an issue in México, we do not suggest any liberal attire.

CURRENCY

The local currency is the Mexican Peso and approximate exchange rates are (Nov 2010):

1 € =	17.15 MX Pesos
1 GBP =	19.80 MX Pesos
1 US\$ =	12.35 MX Pesos

Notes in circulation are: 20 (plastic), 50 (plastic), 100, 200 and 500 pesos. Coins in use are 0.10, 0.20, 0.50, 1, 2, 5, and 10 pesos (20 and 100 pesos coins exist but are very rare). You should be aware that 1 and 2 pesos and 10 and 20 pesos coins are similar and can be confused.

CUSTOMS

All things of personal use do not incur duty. Other articles are allowed with some limitations: 2 liters of alcohol, souvenirs and gifts not exceeding USD\$ 300 (€ 200). Foreign currency is limited to USD\$ 10,000 or equivalent without declaration.

DOCTOR

A branch of the Aranda de la Parra Hospital will be open and on-call in the Service Park during Rally HQ opening hours. HQ Emergency number: **+52 477 771-1144**

DRIVING

Cars are left-hand drive in México and you drive on the right side of the road. Remain aware of possible road hazards such as animals crossing, potholes and the omnipresent speed reducer bumps called "TOPES". The right of passage in corners and roundabouts is not observed in México City and surrounding areas and usually the biggest, or the bravest, goes first. In León, nonetheless, stop signs are "mostly" respected and the roundabout traffic has always the right of way.

The speed limit in towns is 40 km/h and is indicated everywhere else by road signs. Highway speeds can vary between 80 to 110 km/h. Speed limits are usually posted. Carry your Driving License at all times. Wearing seat belts is compulsory. Mobile phones are not to be used while driving. Hands-free is permitted

ELECTRICITY

The electrical current in México is 110 volts (60 Hz) and sockets accept plugs with two flat parallel pins (American specification). Most laptop computers operate equally on 110 or 220 volts and only require a travel plug adaptor.

ELEVATION

The mean elevation of the city of León is 1,786 meters above sea level (5,860 ft). The elevation of the special stages varies from 1,800 to 2,737 meters above sea level.

FESTIVALS

Mexicans celebrate a number of festivals and seasonal events throughout the year and it is worthy of note if planning a vacation. Any festivals or holidays during the week of the rally will be notified in advance.

GAS STATIONS

Gas stations (PEMEX) are normally open 07:00-22:00 hrs, although those in major cities tend to be open 24 hours.

You should tip the attendant approximately 5 to 10 pesos.

All gas stations are full-service and prices are fixed throughout the country (Prices and Exchange Rate Nov 2010)

- Premium grade (Red pump) is 93 octane (R+N/2) at \$ 9.98 pesos / liter (€ 0.58)
- Magna grade (Green pump) is 87 octane (R+N/2) at \$ 8.52 pesos / liter (€ 0.50)
- Diesel #2 (Black pump) at \$8.88 pesos / liter (€ 0.52)

NOTE: Credit Cards are not always accepted. Please check with attendant before refueling.

Always check that the pump has been reset (zero reading) before refueling.

LANGUAGE

The official language in México is Spanish although many dialects are still used in different regions. English is spoken in most hotels and tourist destinations. Most members of the Organizing Committee speak good English.

MEDICINE

Many international brands can be found in pharmacies. (Please note that some brand names are different: Maalox to Melox, Zantac to Azantac etc...) However it is always wise to take an adequate amount of your personal medicines with you.

MOCTEZUMA'S REVENGE

Food in hotels and good restaurants is safe. Be aware that spicy dishes are common in menus and can be VERY spicy. Foreign visitors should avoid "roadside" restaurants and sub-par eateries. Many visitors get sick by not sticking to this simple rule. Mexicans call it "Moctezuma's Revenge".

Pre-packaged snacks are safe to eat. (Marinela, Bimbo, Sabritas, Barcel)

(See WATER, below)

OPENING HOURS

Most shops are open from 09:00 to 18:00 hrs Monday to Saturday. Major department stores or shopping malls open from 10:00 to 20:00 hrs seven days a week. In small towns some shops close for lunch from 14:00 to 16:00 hrs. Please note that in México, normal lunchtime is from 14:00hrs to 16:00hrs.

PHOTOGRAPHY

México is a colorful country to photograph. It is of course polite to ask permission before photographing people. Pictures in some temples are forbidden, and should never be taken during a ceremony.

POPULATION

The total population of México is 112 million, 4.9 million of whom live in the State of Guanajuato and 1.3 million in León. 29% of the country's population is under 14 and 6.2% is over 65.

PROTECTION

The high altitude and gentle winds mean sunburn can happen surprisingly quickly. Sunscreen (SPF 25+), a hat, sunglasses and long sleeve shirts are greatly recommended.

SAFETY

Special caution must be taken when in México City. Avoid unauthorized airport taxis and ask the hotel concierge for any special safety tips around the area you'll be staying. When in León, normal safety behavior is recommended.

SUNRISE / SUNSET

Day	Twilight	Sunrise	Sunset	Twilight
Thursday March 3 rd	06:43 hrs	07:06 hrs	18:51 hrs	19:13 hrs

Sunday March 6 th	06:41 hrs	07:03 hrs	18:52 hrs	19:14 hrs

TELEPHONE

National and regional telephone codes to landlines and mobile numbers are confusing. Please refer to the dialing table in section 21.6.

GSM and 3G are widely available in México, but please check with your national provider about the availability of roaming agreements within the country. As a general rule, coverage in the mountains, with either a local or GSM mobile telephone, is intermittent.

TIME

México extends over three time zones. The zone in which the rally will take place is at GMT - 6 hrs.

TIPPING

Tipping is common practice in México and can get you a long way. Normal tipping in restaurants is 10-15% while porters, taxi drivers, parking and gas station attendants will expect about 5-10 pesos.

WATER

Tap water is not recommended for drinking. Most hotels provide bottled water in the room at no charge. Soft drinks, bottled water and juices are commonly available and safe to drink.

21.6. Telephone Dialing

The Mexican phone dialing system is similar to the US system:

The country is divided into Local Area Codes (LAC) represented in parenthesis called LADA in México.

Dialing from, or to, mobiles (GSM, Digital and Analogue) can be VERY confusing. Please do not hesitate to ask for assistance.

Please note that "LAC + number" is always 10 digits (XX) XXXX XXXX or (XXX) XXX XXXX

To dial internationally from México, dial: 00 + country code + number

Important Local Area Codes:

México (Country Code):	52	Silao and Airport:	472
México City:.....	55	Guanajuato City:	473
Guadalajara:	33	León:	477
Tampico:	833	Veracruz.....	229

Dialing from:	Using:	To:	Dial:
outside México	any system	any city in México	+52 + LAC + number
outside México	any system	a mobile in México (any).....	+52 + 1 + LAC + number
México.....	a GSM mobile.....	anywhere in México (incl. mobiles).....	+52 + LAC + number
México.....	a land line	a land line in a different LAC	01 + LAC + number
México.....	a land line	the same LAC (land line).....	number
México.....	a local mobile	a mobile in the same LAC	LAC + number
México.....	a local mobile	a mobile in a different LAC	LAC + number
México.....	a land line	a mobile in the same LAC	044 + LAC + number
México.....	a land line	a mobile in a different LAC	045 + LAC + number

TIP: From GSM phones, the best way to call anyone (land or mobile) within Mexico, is dialing in the international format:

+52 XXX XXX XXXX

If you want to call a mobile in Mexico from outside the country, you have to add a '1' after the country code:

+52 1 XXX XXX XXXX
