1. INTRODUCTION AND WELCOME

RALLY ARGENTINA IS BACK WITH THE BEST!

Rally Argentina returns in its best shape to the FIA WRC!

This traditional event will take place on May 26 to 29 through the most emblematic roads of the hills of Cordoba.

Spreading out across the three valleys of the region: Traslasierra, Calamuchita and Punilla; the itinerary will present all those characteristics that make this event unique.

Furthermore, a new ingredient has been added to the cocktail of fast and twisty roads, green and rough landscapes: mixed surface!

This feature will appear in two special stages that will sound familiar for those fans that have followed the category for a while: Las Jarillas – Falda del Carment and El Condor – Cuesta Blanca.

Both have formed part of the itinerary of international events in the past, and have been partially paved in recent years.

Rally Argentina 2011 will have its opening on Thursday with the running of a super special stage that will also close the competition.

Organizers have worked on a highly competitive itinerary for cars, while innovative and attractive for spectators.

We hope you enjoy it!
