## 1. WELCOME

### 1.1. Governor of Guanajuato

It is only my second year as Governor of the great State of Guanajuato, and that has been enough time for me to understand the real importance of the rally to our home. I was aware, of course, of the direct economic benefits that the FIA World Rally Championship brings to the region every year, and I have lived the excitement the rally brings to every level and corner of society. Now that I can personally see the effort it takes to make the event better every year, however, does the deeper significance of the event become clear.

Over the past ten years, the rally has grown from a complete newcomer event to a full-fledged round of the WRC. In that time, it has expanded its scope, covered new ground and grown to one of the most important events on the calendar. In doing so, it has of course had to do extensive roadwork over our mountains and valleys, and that is precisely where its influence has been felt the most. Those hundreds of kilometres of smooth gravel roads that used to be beaten tracks at best, or simply inexistent, have transformed the lives of thousands of people. Those roads have now become main communication arteries to scores of towns, and on those arteries, society has flourished.

Opportunity knocked, and people answered. As soon as each road was graded, government services and private enterprise followed. Electricity, telephone and utility posts sprang up. Delivery trucks established new routes. Transport spread to new corners. Municipal services grew. Impassable peaks and unreachable hamlets became connected and lives improved immeasurably. Even our Health Rally, that has brought medical services to so many, can give thanks to those roads. This isn't just a sporting event, it is part of the progress of our State, and we will keep pushing to make it better.

This is only our first decade. I can't wait to see what the future holds.

Welcome to Guanajuato!

Lic. Miguel Márquez Márquez  
Governor of the State of Guanajuato

## 1.2. Introduction

---

The recent editions of Rally Guanajuato Mexico were conceived to comply with two fundamental ideas: to achieve the longest stages possible, and to retain the crown of the most compact and efficient rally in the world. Those two goals may seem contradictory, but the hard work of a dedicated team and the characteristics afforded by the State of Guanajuato have made it possible. For 2014, we set out to improve upon those principles.

We have shortened the total distance to 1'038.19 Km and increased the Special Stages to 399.93 Km. The result? 39% of competitive distance. The four longest stages will have a length of 43, 44, 53, and 56 Kms, respectively.

There is also an important change to what many people believe is one of the cornerstones of Rally Mexico: the indoor Service Park.

For the very first time in our history in the WRC, the service park will move outside the Poliforum to the adjacent Fairgrounds. It will be located in the area used in past years for the León Street Stage. Not only do we believe it is time to try something new; we are also responding to frequent requests from the teams. We will do our utmost to provide the best service area amenities as we have in the past, with a flat hard surface and a great environment. The designs of the new facilities are quite interesting and we're sure they'll be a welcome change.

Welcome to Mexico!

The Organising Committee

### 1.3. History

---

Rally America, later known as Corona Rally Mexico and now Rally Guanajuato Mexico, was created in 1979 through a co-operation by the two largest clubs in Mexico: Club Automovilístico Francés de México (CAF) and the Rally Automovil Club (RAC). Both clubs have a long history of sporting competition, so their collaboration was a big step forward for rallying in the country. It was originally hosted in the State of Mexico and ran continuously until 1985.

After an absence of six years, the event ran again in 1991 and followed the route of El Paso de Cortés, between two of Mexico's largest volcanoes. Following the cancellation of the 1992 edition of the event, the CAF opted for a different concept: a short rally with a high percentage of special stages. The result was the very successful 1993 edition that was held in Valle de Bravo.

The Organising Committee then took over the running of the Rally de las 24 Horas, the CAF's flagship event, and, for this reason, Rally America was not staged again until 1996, when the internationalization of the project began.

The CAF and its new promoting partner, Rallymex, moved the event to the US border in Ensenada, Baja California, for two years, where it started to attract international entries.

In 1998, the organizers decided to rename the event and move it to León, Guanajuato. With a long-term business plan focusing on inclusion in the World Rally Championship in place, the event ran again in 1999 and 2000, stepping up a gear each year. From 2001 to 2003, the organizers went for observation by the FIA, successfully running the event on each occasion.

The 2003 Corona Rally Mexico - the 17th in the history of the rally - proved to be the crucial turning point. New facilities at the Poliforum Expo Center were groundbreaking in the sport and this, combined with one of the most compact routes ever, put the event firmly in frame for World Championship status. A total of 45 crews representing 11 countries crossed the start ramp in Guanajuato during one of the most spectacular opening ceremonies seen in the sport.

Corona Rally Mexico made its debut in the expanded 16-round World Rally Championship of the 2004 season, running successfully as the third round of the series and implementing a raft of regulation changes introduced by the FIA for the season.

Since then, Rally Guanajuato México has traditionally been set as the first full gravel event of the championship.

The event has consistently maintained its signature format of a compact route with a high percentage of Special Stages.

## 1.5. Rally Guanajuato México 2013 Edition

---

Sébastien Ogier and Julien Ingrassia cantered to the finish of the 10th Rally Guanajuato Mexico in León on Sunday afternoon to record their second successive FIA World Rally Championship victory. The Frenchman's huge winning margin of 3min 28.9sec also marked the first gravel success for Volkswagen's new Polo R WRC and the ninth WRC win in Ogier's relatively short career – his first came with Citroën in Portugal in 2010.

Ogier was able to slow his pace through the final stages, but he did manage to claim the maximum three extra points on the Power Stage to extend his lead after three rounds.

Finland's Mikko Hirvonen began the final day just over seven seconds in front of Belgian Thierry Neuville in the fight for second position, but the fastest time through the longest stage of the entire event confirmed the runner-up spot for the Citroën DS3 driver, as Neuville claimed his first ever podium finish with an excellent third in the Qatar World Rally Team Ford Fiesta.

Dani Sordo and Carlos Del Barrio finished a comfortable fourth in the second of the Citroën Total Abu Dhabi World Rally Team DS3s and Qatar's Nasser Saleh Al-Attiyah finished his first WRC round of the season in a solid fifth place. Australian Chris Atkinson enjoyed his return to the series and overtook American Ken Block on the first stage of the morning to confirm sixth overall.

Mexican Benito Guerra, Czech Martin Prokop and Russian Evgeny Novikov rounded off the top 10. Qatar's Abdulaziz Al-Kuwari was in a class of his own in the WRC 2 category. The Ford Fiesta RRC driver finished a fine 12th overall on his Mexican debut and a staggering 9 min 14.6 seconds ahead of Peruvian WRC 2 runner-up Nicolás Fuchs.

A standard inland transit from México City to León is 7 hours with private custody, and 12 hours with police custody.

At the time of arrival in León containers can be immediately delivered to workshops previously designated by teams, or sent to temporary holding areas within the Rally Campus.

## 11. HOTEL / ACCOMMODATION RESERVATION

Since 2007, a special agreement has been established with major hotels in the region. This agreement has helped stabilize prices and allows for better price control during the event.

Part of the agreement with hotels allows for special rates for teams entered in Rally México for 2014.

The hotels, which signed the agreement, are in bold in the following list and will give a special discount with the code: rallymex. This will allow independent reservation for each team at a preferential rate when they are contacted directly.

- **León:** The city of León is the epicentre of the rally and where most activities take place. Although there are many hotels in León, these are the ones that get booked up early.
- **Guanajuato City:** Guanajuato is a colonial city located approximately 45 minutes from León and very close to Friday's stages. It has many hotels and is a very good place to stay and combine tourism with the rally.
- **Silao:** Silao is a small industrial city located approximately 30 minutes from León. From here you can easily access most of Saturday's stages. Silao has very few hotels so reservations should be made early.

If the request is accepted, an agreement will be included, to be signed by the Editor. No accreditation will be finalized without this signature. If the representative of the publication is unable to attend, the National Press Officer needs to be notified at least seven days before registration opens.

#### 18.3.4. FIA WRC permanent pass holders

No accreditation request is needed, but both the National Press Officer and the FIA Media Delegate need to be informed of the pass holder's intent to attend the event. Please do so by fax or e-mail at least five days before Scrutineering. Should a permanent pass holder wish to apply for one or more additional passes for a special event, the following steps must be followed: 5.2 a), b), c), e) and h).

#### 18.3.5. Principles for accreditation, documentation and photographers

##### A) Principles

- a) A maximum of three representatives (journalists or photographers) per publication will be accredited.
- b) A publication will need to comply with the distribution and quality established by the FIA, and be for sale to the public. Internal and club publications cannot be accredited as media outlets. Accreditation decisions are based on the market of the requesting country. The minimum circulation numbers for a national publication, weekly or monthly, is usually 20,000 copies, and 50,000 for a national newspaper.
- c) Promoters of any kind, such as PR or marketing personnel, cannot be accredited as media representatives. Such requests must be sent directly to the FIA.
- d) Private teams with established drivers may apply for accreditation for a media representative directly to the FIA Media Delegate.
- e) Central and local offices of large international press agencies (AP, AFP, Reuters, ANSA, UPI, DPA, LUSA, BELGA, JIJI, KYODO, EFE, Press Association, SAPA, Australian AP, APA, etc) will always be accredited directly by the FIA.

##### B) Required documentation for each request

- a) An accreditation request on the publication's official stationery, signed by the Managing Director or Editorial Director. Any request signed by staff will not be accepted.
- b) An accreditation form properly filled out.
- c) The name(s) of the representatives who will cover the event.
- d) A copy of the National Press Card (if it applies) of the representatives who will cover the event.
- e) The representatives' post.
- f) General information about the publication, such as frequency and distribution.
- g) An original copy of the publication.
- h) Copies and originals of material published about Rally Mexico 2013 or the FIA World Rally Championship.
- i) A fax number to serve as point of contact for the publication. (Without this, the publication will not be accredited.)
- j) A formal letter of intent stating the publication's commitment to publish a piece on Rally Mexico and a possible publication date.
- k) Any request by a freelance journalist must be accompanied by a list of articles published during the previous 12 months, including the publication name and date.

**Note:** f), g), y j) do not apply to large international press agencies. h) does not apply to those publications applying for the first time.

**Late, incomplete, faxed or emailed requests will not be considered.**

A pass request must include a written confirmation that neither the publication, agency, journalist nor photographer who will receive the accreditation, will seek other FIA accreditations for any other use, including work for radio or television stations.

### C) Accreditation for photographers

#### National Press Photographers

Publications or agencies seeking accreditation for a single WRC event must provide proof of independent coverage in the form of at least 15 photographs taken of Rally Mexico 2013. If they have not been accredited previously, Rally Guanajuato Mexico will submit their request to the FIA Media Delegate for discussion. In the case of an agency, the pictures must have been sold at regular commercial prices to publications that comply with FIA criteria.

For publications, the published pictures must be demonstrated to be original work by the author accreditation for the publication.

**The amount of passes for National Press Photographers is limited by the FIA to 12.**

#### International Press Photographers

Publications or agencies seeking accreditation for a single WRC event must provide proof of independent coverage in the form of at least 15 photographs per pass taken of each event where they attended as accredited media during the previous year.

In the case of an agency, the pictures must have been sold at regular commercial prices to publications that comply with FIA criteria.

For publications, the published pictures must be demonstrated to be original work by the author accreditation for the publication.

**The amount of passes for National Press Photographers is limited by the FIA to 30.**

Commercial or promotional photographers may request accreditation to [rally@thesportsman.de](mailto:rally@thesportsman.de)

## 21. LIST OF USEFUL FACTS AND SERVICES

### 21.1. México

Our country is the natural link between the United States and Latin America. And, through the signing of 12 trade treaties that grant a preferred access to 44 countries - among them the North American Free Trade Agreement with the U.S. and Canada, as well as those signed with the European Union, Chile, Brazil and Argentina - México has access to a potential market of more than 860 million consumers and is consolidating itself as one of the most important emerging economies in the world. ([Mexico](#))

### 21.2. León & Guanajuato

Guanajuato is one of the best-communicated states in México, with a complete network of roads. Its rail network is located in the area of confluence of the main trade routes of the country, and by air it is well connected to the main destinations in México and the United States.

León is the biggest city in the State of Guanajuato, with 1.6 million inhabitants in the metro area, and is the fifth biggest city in México. In an area of 400 kilometers surrounding the city, there are approximately 50 million people, including the population of México City and the State of México.

León is near three of the most important tourist and colonial cities in México: Guanajuato, a UNESCO World Heritage Site; Dolores Hidalgo, the birthplace of the National Independence, and San Miguel de Allende, one of the most popular tourist and colonial cities visited by foreigners.

Guanajuato City, the capital of the State of Guanajuato and venue for the start of Rally Guanajuato México, is considered to be the most beautiful colonial city in the Americas and owes its fame to rich veins of silver and gold discovered by the Spanish years ago. It is one of the most important cities in the country, both traditionally and culturally. Old world charm lures visitors from around the world, and strolling minstrels, known as “estudiantinas”, enrich the medieval atmosphere with music from a bygone era. The extensive underground tunnels and walkways also make Guanajuato a beautifully unique and captivating city. Construction of the Teatro Juárez, began in 1873 and it was finally opened in 1903 by President Porfirio Díaz. It is one of the most beautiful theaters in México with a variety of architectural styles.

León's pre-Hispanic legacy can be seen in its architecture, monuments and parks. Founded in 1576, it is now a modern urban center with the necessary infrastructure, public safety, universities, transportation and roads necessary to project this city in the new millennium.

León is well known for its infrastructure and organizational capabilities for any kind of international event. The city not only has the biggest infrastructure for international events within its convention center (CONEXPO), but also offers a wide range of services like theaters, museums, restaurants, recreational centers, hotels, shopping and financial centers beyond comparison in central México.

Its shoe and leather industries are the most important in the country, since it contributes 50 per cent of the total national production. It also has a complete infrastructure of hotel services and of purveyors for the fair and exposition industries. Furthermore, in close proximity to the city via excellent roads, visitors can access historical places like Guanajuato, San Miguel de Allende and Dolores Hidalgo. León is linked directly to other political and economical centers in México via road and air. As a platform to launch commercialization or production strategies, León offers the best infrastructure and unquestionable capacity as tourism, commercial and business center.

## 21.3. Tips From A to Z

---

### AIRPORTS

---

It is not possible to take baggage carts out of the arrivals hall at México City airport, although there are porters to assist with luggage. A tip will be expected. It is also wise to reconfirm all flights in advance.

### BANKS & CREDIT CARDS

---

Banks are generally open from 09:00-16:00 hrs Monday to Friday and a few from 09:00-13:00 hrs on Saturday. All international credit cards (Visa, Master Card and American Express) are commonly accepted in major cities (Guanajuato and León).

Most Automatic Teller Machines (ATM) are open 24 hours a day and can be found curbside in banks, some hotel lobbies and shopping centers. Small businesses in small towns will not take credit cards.

Changing Travelers' Checks is best done in the morning, as a number of banks will not accept them after 14:00hrs. A passport is also required. For the most favorable rates, change money through banks.

It is somewhat difficult to exchange European currencies in Guanajuato (including the Euro). The US Dollar is more easily accepted and exchanged.

### BARGAINING

---

Bargaining is common practice in tourist areas where quoted prices can often be double the value of the goods. In smaller towns away from the tourist sites, bargaining is not recommended as it can be seen as a lack of civility.

### BEHAVIOUR

---

Basically it is not difficult to act respectably in México; in general people are friendly and quite informal. As with travel to any foreign country, friendliness and a desire to respect local customs is appreciated.

### CLIMATE

---

The climate is typically tropical, although varies in the different regions of the country. March is the dry season and normally warm and windy. Occasionally, short tropical rains can be followed by warm sunshine and 30°C temperatures, while the altitude in Guanajuato can see temperatures drop below 15°C at night.

### CLOTHING

---

Although dress code is not an issue in México, we do not suggest any liberal attire.

## CURRENCY

The local currency is the Mexican Peso and approximate exchange rates are (February 1<sup>st</sup> 2014):

1 € =	18.01 MX Pesos
1 GBP =	21.94 MX Pesos
1 US\$ =	13.35 MX Pesos

Notes in circulation are: 20, 50, 100, 200 and 500 pesos. Coins in use are 0.10, 0.20, 0.50, 1, 2, 5, and 10 pesos (20 and 100 pesos coins exist but are very rare). You should be aware that 1 and 2 pesos and 10 and 20 pesos coins are similar and can be confused.

## CUSTOMS

All things of personal use do not incur duty. Other articles are allowed with some limitations: 2 liters of alcohol, souvenirs and gifts not exceeding USD\$ 300 (€ 220). Foreign currency is limited to USD\$ 10,000 or equivalent without declaration.

## DOCTOR

A branch of the Aranda de la Parra Hospital will be open and on-call in the Service Park during Rally HQ opening hours.

HQ Emergency number: **+52 477 771-1144**

## DRIVING

Cars are left-hand drive in México and you drive on the right side of the road. Remain aware of possible road hazards such as animals crossing, potholes and the omnipresent speed reducer bumps called "TOPES". The right of passage in corners and roundabouts is not observed in México City and surrounding areas and usually the biggest, or the bravest, goes first. In León, nonetheless, stop signs are "mostly" respected and the roundabout traffic has always the right of way.

The speed limit in towns is 40 km/h and is indicated everywhere else by road signs. Highway speeds can vary between 80 to 110 km/h. Speed limits are usually posted. Carry your Driving License at all times.

Wearing seat belts is compulsory. Mobile phones are not to be used while driving. Hands-free is permitted.

## ELECTRICITY

The electrical current in México is 110 volts (60 Hz) and sockets accept plugs with two flat parallel pins (American specification). Most laptop computers operate equally on 110 or 220 volts and only require a travel plug adaptor.

## ELEVATION

The mean elevation of the city of León is 1,786 meters above sea level (5,860 ft). The elevation of the special stages varies from 1,800 to 2,737 meters above sea level.

## FESTIVALS

Mexicans celebrate a number of festivals and seasonal events throughout the year and it is worthy of note if planning a vacation. Any festivals or holidays during the week of the rally will be notified in advance.

## GAS STATIONS

Gas stations (PEMEX) are normally open 07:00-22:00 hrs, although those in major cities tend to be open 24 hours.

You should tip the attendant approximately 10 pesos.

All gas stations are full-service and prices are fixed throughout the country.

- Premium grade (Red pump) is 93 octane (R+N/2) at \$ 12.69 pesos / liter (€ 0.70)
- Magna grade (Green pump) is 87 octane (R+N/2) at \$ 12.13 pesos / liter (€ 0.67)
- Diesel #2 (Black pump) at \$12.49 pesos / liter (€ 0.69)

**NOTE:** Credit Cards are not always accepted. Please check with attendant before refueling.

**Always check that the pump has been reset (zero reading) before refueling.**

## LANGUAGE

The official language in México is Spanish although many dialects are still used in different regions. English is spoken in most hotels and tourist destinations. Most members of the Organizing Committee speak good English.

## MEDICINE

Many international brands can be found in pharmacies. (Please note that some brand names are different: Maalox to Melox, Zantac to Azantac etc...) However it is always wise to take an adequate amount of your personal medicines with you.

## MOCTEZUMA'S REVENGE

Food in hotels and good restaurants is safe. Be aware that spicy dishes are common in menus and can be VERY spicy. Foreign visitors should avoid "roadside" restaurants and sub-par eateries. Many visitors get sick by not sticking to this simple rule. Mexicans call it "Moctezuma's Revenge".

Pre-packaged snacks are safe to eat. (Marinela, Bimbo, Sabritas, Barcel)  
(See WATER, below)

## OPENING HOURS

Most shops are open from 09:00 to 18:00 hrs Monday to Saturday. Major department stores or shopping malls open from 10:00 to 20:00 hrs seven days a week. In small towns some shops close for lunch from 14:00 to 16:00 hrs. Please note that in México, normal lunchtime is from 14:00hrs to 16:00hrs.

## PHOTOGRAPHY

México is a colorful country to photograph. It is of course polite to ask permission before photographing people. Pictures in some temples are forbidden, and should never be taken during a ceremony.

## POPULATION

The total population of México is 112 million, 5.5 million of whom live in the State of Guanajuato and 1.4 million in León. 29.3% of the country's population is under 14 and 9.2% is over 60.

## PROTECTION

The high altitude and gentle winds mean sunburn can happen surprisingly quickly. Sunscreen (SPF 25+), a hat, sunglasses and long sleeve shirts are greatly recommended.

## SAFETY

Special caution must be taken when in México City. Avoid unauthorized airport taxis and ask the hotel concierge for any special safety tips around the area you'll be staying. When in León, normal safety behavior is recommended.

## SUNRISE / SUNSET

Twilight	Sunrise	Sunset	Twilight
06:40 hrs	07:03 hrs	18:53 hrs	19:15 hrs

## TELEPHONE

National and regional telephone codes to landlines and mobile numbers are confusing. Please refer to the dialing table in section 21.6.

GSM and CDMA are widely available in México, but please check with your national provider about the availability of roaming agreements within the country. As a general rule, coverage in the mountains, with a mobile telephone, is intermittent.

## TIME

México extends over three time zones. The zone in which the rally will take place is at GMT - 6 hrs.

## TIPPING

Tipping is common practice in México and can get you a long way. Normal tipping in restaurants is 10-15% while porters, taxi drivers, parking and gas station attendants will expect about 10 pesos.

## WATER

Tap water is not recommended for drinking. Most hotels provide bottled water in the room at no charge. Soft drinks, bottled water and juices are commonly available and safe to drink.

## 21.4. Visa Requirements

Citizens from the following countries do not require a visa for Tourism Purposes:

## 21.6. Telephone Dialling

The Mexican phone dialling system is similar to the US system:

The country is divided into Local Area Codes (LAC) represented in parenthesis called LADA in México.

**Dialling from, or to, mobiles (GSM, Digital and Analogue) can be VERY confusing. Please do not hesitate to ask for assistance.**

Please note that "LAC + number" is always 10 digits (XX) XXXX XXXX or (XXX) XXX XXXX

To dial internationally from México, dial: 00 + country code + number

### Important Area Codes:

México (Country Code): .....	52	Silao and Airport: .....	472
México City:.....	55	Guanajuato City: .....	473
Guadalajara: .....	33	León: .....	477
Tampico: .....	833	Veracruz.....	229

Dialling from:	Using:	To:	Dial:
outside México .....	any system .....	any city in México .....	+52 + LAC + number
outside México .....	any system .....	a mobile in México (any).....	+52 + 1 + LAC + number
México.....	a GSM mobile.....	anywhere in México (incl. mobiles).....	+52 + LAC + number
México.....	a land line .....	a land line in a different LAC .....	01 + LAC + number

México.....	a land line .....	a mobile in the same LAC .....	044 + LAC + number
México.....	a land line .....	a mobile in a different LAC .....	045 + LAC + number

**TIP: From GSM phones, the best way to call anyone (land or mobile) within Mexico, is dialling in the international format:**

**+52 XXX XXX XXXX**

**If you want to call a mobile in Mexico from outside the country, you have to add a '1' after the country code:**

**+52 1 XXX XXX XXXX**
