CLOSER TO RALLY.

1. WELCOME AND INTRODUCTION

Welcome to the 63rd edition of Rally Sweden!

The rally will take place 12 - 15 February in the regions of Värmland and Dalarna and we will also visit our neighbouring country Norway.

Locations

The start and finish of the rally will be located to Karlstad where the HQ is based as well in the Karlstad Congress and Culture Centre (KCCC). As usual, the service park will be built up at the Hagfors Airport. All over night halts this year will be located to Service Park.

Route

The total length of the route is 1409 km and the special stage length is 310 km. About 20 percent of the special stages kilometres are new compared to last year.

The start of the rally and SS 1 will take place in Karlstad on Thursday evening 12 February.

On Friday the rally will, in addition to the stage Torsby, visit Norway for some stages; Røjden (with parts of the stage in Sweden), Finnskogen in reversed direction and Kirkenær. The day will close with a second run on the SSS in Karlstad.

The classic stages Fredriksberg, Rämmen and Vargåsen with the famous Colin's Crest will together with the the short Hagfors Sprint form the competitive sections of Saturday.

On Sunday the stage Lesjöfors will be run before Värnåsen is repeated twice, the second time as the final stage of the rally as well as power stage.

Rally Sweden Historic

A rally with historic cars will take place on Friday and Saturday in conjunction to the WRC rally.

Welcome to a magic rally week in Sweden and Norway in February!

Rally Sweden

Organising Team

FIA Environment accreditation

Rally Sweden has become the first motor sport event in the world to achieve accreditation from the FIA Institute's environment programme. The framework forms part of a broader initiative between the FIA and the FIA Institute aimed at evaluating and reducing the environmental impact of motor sport.

One important factor is the number of print-outs made from various documents. Rally Guide 1 og 2 will only be published on the event website and a bare minimum of supplementary regulations will be printed for the key officials and competitors.

We would appreciate all competitors joining us for this management by informing us early the number of Road Books and other printed documents they need (should be less than the regulatory package), so we do not end up throwing a lot of unused materials to recycling.

THIS DOCUMENT HAS NO REGULATORY POWER - FOR INFORMATION ONLY!

5. SERVICE PARK

5.1 LOCATION

GPS Coordinates: N60 01 568, E13 34 898

The service park will be established at the airport in Hagfors.

Manufacturers, WRC Teams and Support Championships

Each team/competitor will be allocated a designated space on the runway (tarmac surface) in accordance to Appendix 6, FIA WRC 2015 regulations

Legal and private entrants are allocated an area of 10 m x 10 m.

NB-the driving way and access to each individual area is on the rear side of the allocated areas.
A provisional drawing of the service park is enclosed in Appendix 2 (Maps and drawings).

5.10 MEDIA FACILITIES

Press facilities and result service for accredited media will be established next to the Service Park.

5.11 MEDICAL CARE

A medical centre will be established south of the office building (next to the car park) at the service park.

5.13 RECYCLING / ENVIRONMENTAL REQUIREMENTS

For environmental reasons we kindly ask teams and competitors to use the recycling areas arranged at the service park (marked on the Service Park drawings). Garbage container will also be available for combustible waste. Oil, drums, spareparts etc may not be left on the runway under any circumstances. A special container for Hazardous Waste will be put in the Service area marked Eco-Simplex, in this the teams can place oil, fluids, lamps, electronic waste, absorbants etc. Empty drums and spareparts can also be put in or close to this container.

CLOSER TO RALLY.

9. HELICOPTERS

The Swedish Transport Agency, Civil Aviation Department, has declared the airspace above the rally area as "Restricted Area". Only helicopters registered with the organizer and following the instructions of the Swedish Transport Agency and the organizer, are allowed to operate in this area.

Note! All foreign Aerial Work operators have to obtain permission for flying in Sweden from the Swedish Transport Agency. For further information please contact:

Swedish Transport Agency Civil Aviation Department:

Phone: +46 771 503 503, e-mail: luffart@transportstyrelsen.se

For safety reasons, the number of helicopters operating in the area will be limited to 30. All registered pilots will have access to the airport in Hagfors (at the Service Park) for parking and refuelling. In addition, all pilots will receive an information manual containing time tables, maps and information about the Service Park, the special stages, GPS coordinates, refuel information, radio frequencies to be used etc. An administrative fee of 2 000 SEK (excl. VAT) will be charged for this service.

The Registration form will be published on www.rallysweden.com in due time. It will also be sent on request, e-mail to: mailbox@rallysweden.com. The form has to be submitted to the event Helicopter Coordinator on January 30 at the latest.

Amendments for operations in Norway.

According to regulations a Flight Plan has to be submitted before crossing the border between Sweden and Norway. Due to poor low altitude radio coverage in the area a phone number for closing and opening of Flight Plans will be issued in the informations manual.

Information regarding custom clearance before landing in Norway will be given later.

Application for "Restricted Area" has been submitted to the Civil Aviation Authority in Norway. Information about approval will be given in the information manual.

Radio frequency for use in Norway will be issued in the information manual.

Sunset in Kirkenær 13 February 2015: 16:48

Climate

Given Norway's extreme northerly position, its mainland climate is surprisingly mild. Norway is the northernmost country in the world to have open waters. This is due to the trade winds forced across the Atlantic Ocean by the American continent and the warm currents (known as the Gulf Stream) flowing north from the Equator towards the Norwegian Sea. The lowest minimum temperature recorded is -51 °C in Karasjok - Karasjok in northern Norway. Winter season is from November to March with January and February as the coldest months of the year, normally with temperatures below zero degrees Celsius.

RALLY SWEDEN ENVIRONMENTAL POLICY

As one of Sweden's largest spectator event Rally Sweden shall be a leader and good example in environmental work both nationally and internationally. We will profile Rally Sweden as an organizer that puts the environment in all areas all year round, even if the rally takes place in the winter. We want the entire organization to be engaged in environmental work and that each employee and marshal takes environmental considerations into the decisions taken. Successively Rally Sweden through conscious choice will work for the environmental impact to be reduced and we will:

- **Commit to continuously improve our environmental work.**
- **Define clear goals and frameworks for our environmental work.**
- **Educate and inform as many people as possible both within the organisation and externally of our environmental policy.**
- **Comply with relevant environmental laws and regulations, and other environmental requirements as well as the FIA Institute Environmental Certification Framework.**
- **Strengthen our focus on specific aspects of our environmental work regularly through structured and planned work within:**
 - o **Seeking cooperation and knowledge exchange with environmental operators to ensure high level quality of our environmental work.**
 - o **Observing environmental work and environmental impact when we choose partners and suppliers and strive to choose products and services with proven good environmental performance.**
 - o **Seeking to limit our transports' environmental impact as much as possible.**
 - o **Saving energy and use renewable energy sources where possible, minimize waste, recycle and energy recycle.**
