**CLOSER TO RALLY.**

## **1. WELCOME AND INTRODUCTION**

### **Welcome to the 64th edition of Rally Sweden!**

The rally will take place 11 - 14 February in the regions of Värmland and Dalarna and will also like previous years visit the neighbouring country Norway.

### **Locations**

In accordance to the request received from the FIA and the Manufacturers, the Service Park will be established in Karlstad Harbour, less than 2 km from the City Centre. This means that the start and finish of the rally, the Service Park, Rally HQ, Karlstad SSS and Parc Ferme all will be located in Karlstad within a distance of 5 km (see city map in Appendix 2).

### **Route**

The total length of the route is 1593 km and the special stage length is 332 km. About 27 % of the special stages kilometres are new compared to last year. A comparison with previous years are enclosed in Appendix 1 together with the itinerary.

After the shakedown stage on Thursday morning 11 February, the start of the rally and SS 1 will take place in Karlstad on Thursday evening.

On Friday the rally will, in addition to the stage Torsby, visit Norway and the stages Røjden (with parts of the stage in Sweden), the new stage Svullrya and Kirkenær.

The classic stages Fredriksberg (this year in reversed direction), Rämmen and Vargåsen with the famous Colin's Crest will together with the short Hagfors Sprint form the competitive sections of Saturday. The day will close with a second run on the SSS in Karlstad.

On Sunday the stages Lesjöfors and Värmlandsåsen are repeated twice, and Värmlandsåsen the second time will be the final stage of the rally as well as power stage.

### **Rally Sweden Historic**

A rally with historic cars will take place on Friday and Saturday in conjunction to the WRC rally.

A warm welcome to a magic winter rally week in Sweden and Norway!

Rally Sweden  
Organising Team

### **FIA Environment accreditation**

*Rally Sweden has become the one of the first motor sport event in the world to achieve the accreditation "Achievement of Excellence" from the FIA Institute's environment programme. The framework forms part of a broader initiative between the FIA and the FIA Institute aimed at evaluating and reducing the environmental impact of motor sport.*

*One important factor is the number of print-outs made from various documents. Rally Guide 1 og 2 will only be published on the event website and a bare minimum of supplementary regulations will be printed for the key officials and competitors.*

*We would appreciate all competitors joining us for this management by informing us early the number of Road Books and other printed documents they need (should be less than the regulatory package), so we do not end up throwing a lot of unused materials to recycling.*

***THIS DOCUMENT HAS NO REGULATORY POWER - FOR INFORMATION ONLY!***

## 9. HELICOPTERS

The Swedish Transport Agency, Civil Aviation Department, has declared the airspace above the rally area as "Restricted Area". Only helicopters registered with the organizer and following the instructions of the Swedish Transport Agency and the organizer, are allowed to operate in this area.

Note! All foreign Aerial Work operators have to obtain permission for flying in Sweden from the Swedish Transport Agency. For further information please contact:

Swedish Transport Agency Civil Aviation Department:  
Phone: +46 771 503 503, e-mail: [luffart@transportstyrelsen.se](mailto:luffart@transportstyrelsen.se)

For safety reasons, the number of helicopters operating in the area will be limited to 30. In addition, briefing for all pilots is mandatory and at the briefing you will receive an information manual containing time tables, maps and information about the Service Park, the special stages, GPS coordinates, refuel information, radio frequencies to be used etc. An administrative fee of 2 000 SEK (excl. VAT) will be charged for this service.

The Registration form will be published on [www.rallysweden.com](http://www.rallysweden.com) in due time. It will also be sent on request, e-mail to: [mailbox@rallysweden.com](mailto:mailbox@rallysweden.com). The form has to be submitted to the event Helicopter Coordinator on January 27 at the latest.

### **Amendments for operations in Norway.**

According to regulations a Flight Plan has to be submitted before crossing the border between Sweden and Norway. Due to poor low altitude radio coverage in the area a phone number for closing and opening of Flight Plans will be issued in the informations manual.

Information regarding custom clearance before landing in Norway will be given later.

Application for "Restricted Area" has been submitted to the Civil Aviation Authority in Norway. Information about approval will be given in the information manual. Radio frequency for use in Norway will be issued in the information manual.

Time zone:	GMT + 1 hour
Sunrise in Kongsvinger 12 February 2015:	07:59
Sunset in Kongsvinger 12 February 2015:	16:52

### Climate

Given Norway's extreme northerly position, its mainland climate is surprisingly mild. Norway is the northernmost country in the world to have open waters. This is due to the trade winds forced across the Atlantic Ocean by the American continent and the warm currents (known as the Gulf Stream) flowing north from the Equator towards the Norwegian Sea. The lowest minimum temperature recorded is -51 °C in Karasjok - Karasjok in northern Norway. ## **RALLY SWEDEN ENVIRONMENTAL POLICY**

As one of Sweden's largest spectator event Rally Sweden shall be a leader and good example in environmental work both nationally and internationally. We will profile Rally Sweden as an organizer that puts the environment in all areas all year round, even if the rally takes place in the winter. We want the entire organization to be engaged in environmental work and that each employee and marshal takes environmental considerations into the decisions taken. Successively Rally Sweden through conscious choice will work for the environmental impact to be reduced and we will:

- o Commit to continuously improve our environmental work.
- o Define clear goals and frameworks for our environmental work.
- o Educate and inform as many people as possible both within the organisation and externally of our environmental policy.
- o Comply with relevant environmental laws and regulations, and other environmental requirements as well as the FIA Institute Environmental Certification Framework.
- o Strengthen our focus on specific aspects of our environmental work regularly through structured and planned work within:
- o Seeking cooperation and knowledge exchange with environmental operators to ensure high level quality of our environmental work.
- o Observing environmental work and environmental impact when we choose partners and suppliers and strive to choose products and services with proven good environmental performance.
- o Seeking to limit our transports' environmental impact as much as possible.
- o Saving energy and use renewable energy sources where possible, minimize waste, recycle and energy recycle.
