01 Introduction and Welcome

A GOOD RALLY IS A SAFE ONE!

Along with the intense job that the FIA has been doing in terms of safety, the Organization of Rally Argentina 2016 will be implementing an intense and innovative operating system from April 21 to 24 for fans to enjoy the most of the world rally cars, but always in a safe way.

This year, spectators will find areas with allowed Access and spectators' zones that other than having an sporting interest, they will have parking services and easy Access. The rest of the road will be banned for spectators.

Allowed areas will be identified with yellow plastic tape whereas the banned areas, will have no tape but warning signs and custody to limit the access.

The itinerary keeps the best of the competition:

For Thursday 21st, the appetizer will be a Brand new Street track in the City of Córdoba for city people to enjoy the roaring of engines just around the corner of their homes.

Friday will be a true battle in the south: Amboy-Santa Mónica, Santa Rosa-San Agustín and Soconcho-Villa del Dique. Besides, the Super Special Stage will be run at noon and in the afternoon in the Theme Park in Villa Carlos Paz.

World Rally Cars will go to the Punilla Valley on Saturday to compete in the roads that link Villa Bustos to Tanto, Los Gigantes to Cantera El Cóndor and Boca del Arroyo to Bajo del Pungo.

Then the big final will be in Traslasierra with the classic stages of Mina Clavero-Giulio Cesare and El Condor-Copina.

The scenario is ready, best drivers and cars of the world are also ready so safety must be up to the task.

We need everybody's commitment and collaboration for the event to be a huge success and to be kept in the FIA World Rally Championship.

Your safety is our priority! Experience the true rally show from the authorized areas!

For extra facilities, please see application form in Rally Guide I.

5.1.9 Environmental procedures

In order to protect the environment, Organizers have implemented special procedures for the correct treatment of the different types of waste. Team members must place:

- **Regular waste** (current domiciliary litter: food, paper, bottles, etc.)
To be placed in green plastic bags to be provided by organizers
- **Contaminated/dangerous waste**
 - o **Solid** (cloths or covers dirty with oil, parts such as brake pads, nuts, screws, etc.)
To be placed in black plastic bags to be provided by organizers
 - o **Liquid** (oils, fuel, brake liquid, etc.)
To be placed in identified jerry cans to be provided by organizers.
These will be collected and treated by a specialized company.

All garbage will be collected from the Service Park at the end of each day

- **Wash of parts**
There will be a dedicated area within the Service Park to wash parts. Washing of parts in other locations is not permitted.

All infringements to the above mentioned procedures will be punished according to the penalty set in the Supplementary Regulations.

Please see Service Park layout in the Appendix section of this guide.

06 TWO-WAY Radios

The Autoridad Federal de Tecnologías de la INformación y de las Comunicaciones (AFTIC) is responsible for the management of the radio spectrum.

The AFTIC shall be notified of the frequencies in the equipment in question, upon which it decides on assignment a suitable frequency to the customer and issues a license for the radio transmitter.

Any unlicensed use, or equipment operated outside the terms of a license is a major concern for the AFTIC.

Competitors wishing to use 2-way radio communication during the event must be authorized to do so (see application form for authorization in Rally Guide I).

19 Copa ACA

COPA ACA will be run after the WRC event.

Crews will start as a group after the last WRC competitor. They will complete only the first passage over the stages.

Competitors of the COPA ACA will be classified separately. And will not be awarded points for the WRC or any other championship.

Competing vehicles must comply with the stipulations of the national technical regulations of the category.

Tyres are free.

The Supplementary Regulations specific to Copa ACA will be applied.

Drivers must use the fuel provided by the organizers.

20 Medical and safety service

The Organizers of Rally Argentina have foreseen a Medical Service based on a hospital network that will be on the alert all throughout the rally, plus the co-ordination of emergency vehicles.

The medical assistance of the event comprehends two aspects: assistance for both competing crews and for attending spectators.

The medical plan for competitors includes the participation of a total of 65 vehicles; distributed in 27 ambulances (AMB), 27 fast intervention vehicles (FIV) and 11 heavy-duty cutting gears (RESCUE), distributed in such a way that there will be a high complexity ambulance, a fast intervention vehicle and a heavy-duty cutting gear, at the start of each special stage. Within the special stages, medical assistance will be distributed in order to answer with a maximum delay of ten minutes, and it will be provided – depending on the terrain – by a FIV, an Ambulance and a heavy-duty cutting gears.

The strategic location of back-up ambulances and a shock room installed in the Service Park in Villa Carlos Paz, complete the above mentioned plan.

A medical helicopter will fly over the special stages during the three competition days, optimizing the referral of patients and the arrival to difficult-to-reach spots.

All vehicles count upon specially trained doctors and operators.

As regards spectators, the medical assistance will be provided by the ambulances belonging to the Province of Córdoba. Besides, every provincial and municipal hospital on the area of the rally will be on permanent alert.

During the rally, in case of an accident, competitors will be transferred to the Hospital de Urgencias (in Córdoba), Hospital Córdoba, Hospital San Roque, Hospital Domingo Funes (in Villa Caieiro). These will be in permanent alert during the whole event.
