5. Insurance

5.1 Traffic Insurance (obligatory)

All cars participating in the rally must have a valid obligatory traffic insurance towards third parties. In Finland the 'Green Card' (International Motor Insurance Card) system is applied. For cars coming from countries outside the Green Card system and EEA-countries, a Nordic frontier insurance must be taken at the Danish, Finnish, Norwegian or Swedish border. Traffic insurance guarantees competitor's cover for civil responsibility towards third parties. The organiser will issue third party insurance cover valid on special stages for cars registered abroad. Insurance certificate together with a special sticker will be handed to the teams before the start of the Shakedown.

All competitors **MUST** be able to show their Green Cards at the administrative checking. The burden of proof for a valid insurance rests solely on the competitor.

5.2 Insurance Coverage

- property damages max. € 3 300 000
- bodily injuries no limit of indemnification

5.3 Limitation of Indemnity

The organiser declines any liability concerning the consequences caused by any fraudulent action taken by the competitor, may this be against the rules and regulations of the rally or against the laws of the country.

Any service vehicles or reconnaissance cars, even those bearing the official identification of the organiser, may under no circumstances be considered as official participants of the rally, hence their insurance policies remain the sole responsibility of the owner.

6. Advertising and Identification (FIA WRC, Art. 18 and 19)

6.1 National Restrictions on Advertising

Tobacco

Advertising of tobacco, tobacco products and imitations, as well as smokers' requisites is forbidden according to the Finnish legislation on cars, competition/service equipment and on the team members' outfits.

Alcohol

The advertising of alcoholic beverages is limited according to the Finnish legislation to mild alcoholic beverages under 22% alcohol in volume. Such brand logos may appear on the competition and service vehicles, as well as on drivers' overalls during the event, but the appearance of drivers in advertisements of such beverages can be interpreted as connecting alcohol with driving and is therefore not allowed. For more information, please contact the secreteriat.

Gambling

All gambling in Finland is regulated by the Lotteries Act from 2002. Only companies allowed to run lotteries or gambling in Finland (and to advertise such services) are Finntoto, Veikkaus and RAY (Finland's Slot Machine Association). All other advertising is forbidden. For more information, please contact arpajaishallinto@poliisi.fi (responsible department at the National Police Board).

6.2 Organiser's Advertising

On the competition numbers the advertising will be NESTE. There will be no organiser's optional advertising.

6.3 Identification

Competition numbers are as per FIA WRC, art. 18 and 19.2 and Appendix 3 of these Supplementary Regulations. These must be visible through the whole duration of the rally.

The following stickers will be placed on the car by the officials:

- at scrutineering: "Scrutineered" sticker below the left rear side window.
- before start: a "2 min" sticker on the front right-hand corner of the roof for competitors with a start interval of 2 minutes.

Tyres for the Junior WRC and Drive DMACK Fiesta Trophy will be published in a bulletin.

All competitors are reminded of the prescriptions of FIA WRC, Art. 60.1.4:

60.1.4 BARCODE NUMBER

Each tyre must have either:

- Two identical moulded barcode numbers (one on each side of the tyre / each barcode having a different colour as defined by the FIA) supplied by the 2016 FIA-approved barcode supplier, or:
- A single moulded barcode number supplied by the 2016 FIA-approved barcode supplier. These barcodes will be used to check that the same tyres remain fitted to a particular car between tyre changes and that competitors are not exceeding the maximum quantities allowed. The tyre barcode must always be visible from outside the car.

7.2 Tyres for Use on Reconnaissance

All cars must use road-homologated tyres with E or DOT type approval.

8. Fuel (FIA WRC, Art. 58-59)

8.1 Ordering Procedure and Price per Litre

All FIA Priority drivers must use the FIA fuel. The supplier appointed by the FIA for 2016 is Panta Distribuzione S.p.A, which will carry out fuel ordering, supply and refuel services.

Non-Priority drivers may use either FIA fuel following the same conditions and rules as the Priority drivers, or commercially available pump fuel (including diesel), dispensed only from pumps at filling stations or other locations as nominated in the Road Book. For environmental and safety reasons no refuelling is allowed in the Service Park (no refuel from cans, drums or similar).

The order form must be e-mailed to fuelorder@panta.it or faxed to +39 0373 235 123.

The order form issued by Panta Distribuzione S.p.A is available on the event website at www.nesterallyfinland.fi.

Payment details by Bank transfer to:

Bank:	BANCA POPOLARE DI SONDRIO
IBAN:	IT58U0569620300000002103X34
SWIFT:	POSOIT22

Credit Card payments only with Visa or MasterCard

The cost of the fuel and refuel services is € 5.00 € + VAT per litre, dispensed into rally cars. It is a condition of supply that payment must be received in full before delivery can be made. The balance of non-used fuel will be credited after the rally.

8.2 Closing date for ordering FIA fuel

All competitors using FIA fuel must place their fuel order with payment directly with Panta Distribuzione S.p.A no later than Thursday 7 July 2016.

8.3 Dispensing Method for Non-Priority Drivers

Non-Priority competitors must pay attention to the fact that the refuel locations for commercially available pump fuel (petrol stations and other locations) and the distances between them may be different from the ones given in the itinerary as Appendix 1, but will be given as a separate document at a later date, as well as in the road book of the rally.

Competitors wishing to use pump fuel must inform the organiser thereof in the entry form.

All non-priority competitors using pump fuel are reminded to pay attention to FIA WRC, Art. 59.3.7: Cars equipped solely with FIA-specified refuel couplings and using fuel as per Art. 59.1.2 must transport the adaptor in the car and show it at pre-event scrutineering.

8.4 Refuel during the Rally

Competitors using the FIA fuel are reminded that there will not be FIA fuel available in the service park of the rally after TC 0. Check fuel availability in remote zones from the rally itinerary (Appendix 1). FIA fuel will be available in the service park refuel zone after TC 1C, 6C, 12E, 16C and 20E.

8.5 Fuel for Drive DMack Fiesta Trophy

To be confirmed in a Bulletin.

9. Reconnaissance

9.1 Procedure for Registration

Reconnaissance registration will take place as follows:

Place: Rally Office in Jyväskylä Paviljonki
Date and time: Monday 25 July 2016 at 16.00-21.00

For the Priority 1 drivers, the materials can be collected by a team member duly designated in writing. Others have to make the registration themselves.

When registering for the reconnaissance and signing for the material, the competitor must give the organiser an information sheet (see Rally Guide 2) including details of the reconnaissance car, mobile phone number and place where the competitor is accommodated.

The reconnaissance car identification must be attached as follows and kept visible for the whole duration of the reconnaissance period:

1. Priority group identification (yellow or white) on the left and the right rear side windows
2. Competitor numbers (orange) both on the windscreen and the rear window (top centre)

After the end of reconnaissance as scheduled in Appendix 2, all reconnaissance identification must be removed from the reconnaissance vehicles.

9.2 Specific and National Restrictions

A. General Running of the Reconnaissance

Provision is made for a maximum of two passages through each special stage for each entered crew during the reconnaissance. This regulation concerns also the special stages which are driven more than once, either in their entirety or in part.

The crews are not allowed to drive in the opposite direction of the rally on the special stages, unless given particular directions to do so by the organiser, their representative or the police. The crews are required to sign in at the start and finish of each special stage for time entry. The crews are only allowed to enter and leave the special stages through start and finish controls.

Reconnaissance outside the schedule as set by the organisers is considered a very serious offence and will be reported to the Stewards who may apply penalties. If a competitor is found on roads used as special stages in the rally outside the reconnaissance schedule given in Appendix 2, he will be reported to the Stewards. AKK-Motorsport will penalise the Finnish drivers with a national suspension. In case of a foreign competitor, his ASN will be informed for further measures to be taken. Traffic on special stages before the rally will regularly be checked by the organisers and also by the police.

B. Traffic and Reconnaissance Vehicles

A maximum speed limit of 80 km/h is imposed on all special stages during reconnaissance unless a lower limit is indicated by traffic signs or by signs placed by the organiser. On SS 1/12 Harju a maximum speed limit of 40 km/h is imposed on the whole stage during reconnaissance, unless a lower limit is indicated by traffic signs or signs placed by the

organiser. On SS Harju, speed will be controlled by rally officials, not by tracking device.

The competitors must drive in a manner that does not endanger or inconvenience other traffic or people living near the stages. The organiser will control speeds used as well as the manner of driving during reconnaissance. The police will penalise traffic infringements according to Finnish Traffic Law.

It is emphasised that reconnaissance is not practice. All the Road Traffic Laws of Finland must be strictly adhered to and the safety and rights of other road users must be respected and reconnaissance cars have to be covered by insurance as required by the law, no responsibility being imputable to the organisers.

All reconnaissance operations, for all crews, may only be carried out using cars complying with the specifications defined in FIA WRC, art. 25.1.

In Finland the use of radar detectors is forbidden and if a competitor is found using a detector during the reconnaissance or the competition, he will be refused to start or excluded.

C. Reconnaissance only

Any driver holding the appropriate international licence may take part in reconnaissance for a rally. The regulations on reconnaissance must be respected in their entirety and the driver must inform the organiser of his wish to take part in the reconnaissance within the entry period of the rally. The driver must pay a fee of € 1000 + 10% VAT= € 1100 for taking part in this reconnaissance.

More accurate instructions of the procedure will be given in RG 2. For the drivers designated by the FIA, these trackers must be collected and returned as given in Art. 3 of these regulations.

9.3.2 Organiser's Speed Control Devices

All drivers taking part in Neste Rally Finland must carry a speed control checking device by the Organiser in their car during reconnaissance. These trackers must be collected and returned as given in Art. 3 of these regulations. In order to run the device, the
