The participants (competitors/drivers/co-drivers) take part in the event at their own risk. They bear the responsibility under civil and criminal law for any damage caused by them. With their entries, they waive any claims or rights to pursue action for damages in connection with the event (tests/ reconnaissance of the special stages, shakedown, special stages to perform top speeds or shortest driving times, road sections) against:

- the other participants, the drivers and co-drivers of the course cars as well as their assistants, the owner and proprietors of the other cars,

In the case of damages resulting from a slight negligent breach of duty of a contractual obligation, the liability for property damage and pecuniary loss is restricted to the typical foreseeable damage as regards the amounts.

The exclusion from liability shall become effective for all parties concerned upon submission of the entry form to the ADAC or to the Organiser.

The waiver of liability applies to claims for any legal reason whatsoever, including but not limited to claims for damages based on contractual and non-contractual liability and to claims from tortious liability.

Implied exclusions from liability shall remain unaffected.

By submitting their entry, the competitors/ registered owner(s)/ drivers/ co-drivers acknowledge that motor vehicle insurance (motor vehicle third-party liability, Casco comprehensive/collision damage coverage) does not cover any damage or claims incurred during special stages or the shakedown. They undertake to pass this information on to the owner of the vehicle used.

If the participants are not themselves owner of the competition car, they must make sure that the limitation of liability which is part of the entry form is signed by the car owner before the event.

In the case that, notwithstanding this obligation, the above mentioned declaration was not signed by the car owner, the participants discharge all the above mentioned persons from any claim by the car owner.

With regard to claims against the other participants (competitor, driver and co-driver), their assistants, the owners and proprietors of the other cars, the own competitor, drivers, co-drivers and own assistants, this release refers to damages arising in connection with the special stage(s) on which the top speeds or the shortest driving time should be achieved and/or the associated test(s)/reconnaissance. Tyres for JWRC: Michelin: To be published by Bulletin

Special attention is also drawn to the Appendix V of the 2016 FIA WRC Sporting Regulations regarding tyre regulations!

7.2.2 Each transport vehicle must be fitted with a TFZ sticker with start number (windscreen), supplied by the organiser.

7.2.3 The transport vehicles may access the zone itself only upon instruction of the marshals on-site. Team personnel may then remain nearby their transport vehicle, provided that all applicable provisions are respected.

7.2.4 The transport vehicles must clear the zone immediately and with no hesitation after their rally car has left.

7.2.5 The tyres for competitors who are required to use tyres from an FIA nominated tyre company will be transported by the respective tyre company (or their appointed representative) so that the provisions under 7.2.1 to 7.2.4 do not apply for these competitors.

More details will be published in a Bulletin, if applicable.

See point 3 of these Supplementary Regulations.

8.3 Dispensing method for non-priority drivers

Non Priority drivers may use either FIA fuel following the same conditions and rules as the Priority drivers, or commercially available pump fuel, dispensed only from pumps at filling stations marked in the Road Book. Should a particular car not be able to cover the distance between two corresponding filling stations due to the individual fuel consumption and the individual fuel tank capacity, FIA fuel may be ordered and refuelled at the FIA refuel zones (deadlines for ordering must be respected!!).

8.4 Technical requirements

According to article 59.3.2 of the 2016 FIA WRC Sporting Regulations, all competitors are required to fit FIA specified refuel couplings, except non priority drivers using a car which retains the standard tank. Cars of priority drivers specifically must be fitted with FIA fuel sample couplings (Art. 59.3.5). Cars equipped solely with FIA specified refuel couplings and using fuel as per Art. 59.1.2 must transport the adaptor in the car and show it at pre-event scrutineering (Art. 59.3.7).

Date and time: Thursday, 18 August 2016, from 20:15, podium at the Porta Nigra Trier.

The ceremonial start for all cars will be given in reverse order of the start list for Section 1, normally all in one minute intervals.

Time cards will not be issued.

The rally cars will be brought in convoys from the service park to the ceremonial start location (Porta Nigra Trier). To put together the groups of cars, all rally cars must be brought into the holding area Messepark (technical zone/regrouping area) under the following conditions:

- The cars may be brought by a competitor's representative.
- Each car must enter the holding area on Thursday, 18 August 2016, between 19:00 and up to 60 minutes before each individual ceremonial start time.

Access to the holding area is limited to team members and media representatives with appropriate identification. A team representative may drive the car from the holding area Messepark Trier to the waiting zone in front of the ceremonial start at the Porta Nigra Trier.

Crew members must wear their approved overalls at the ceremonial start.

- Applicable for all cars, except the cars of P1 drivers:
The first convoy (positions 1 – 5 on the ceremonial start list under exclusion of the P1 drivers) is scheduled to leave the holding area (regrouping area service park) to the ceremonial start at approximately 19:45hrs, the second one (positions 6 – 10) at 19:50hrs and the third one (positions 11 – 15) at 19:55hrs. The remaining convoys are scheduled to start in 5 minutes intervals with groups of 5 cars, in the order of the ceremonial start list, starting from approximately 20:00hrs.
- Applicable for P1 drivers, co-drivers and their cars:
The ceremonial start procedure will be preceded by an autograph session applicable for all P1 drivers and co-drivers with their cars to be presented at the Trier 'Hauptmarkt' between 19:30 and 20:00hrs on Thursday, 18 August 2016. The cars will be accompanied by police in convoys from the service park to Trier 'Hauptmarkt'. After the autograph session, police will again accompany the cars in convoys from Trier 'Hauptmarkt' to the fenced area 'Simeonstiftplatz' nearby the Porta Nigra. From there, they will be directed to join the holding area in front of the Porta Nigra according to their scheduled ceremonial start times. Detailed time schedules and plans will be published in a Bulletin.

The cars may be driven by a competitor's representative for all the transfers involved.

After the podium procedure, each car and crew must follow the itinerary which will be given in Rally Guide 2 to leave the start area, until they join public traffic area from where the itinerary is free. More detailed plans of the areas will be published in Rally Guide 2.

12.2 Finish procedure

The competitive element of the rally will conclude at TC 18C (Service OUT/Parc Fermé IN).

From this point, all cars are subject to parc fermé rules until the parc fermé is opened at the instruction of the stewards.

After the conclusion of the Rally at TC 18C, all classified cars shall be driven in convoys escorted by the police from the Parc Fermé Messepark to the finish procedure at the podium Porta Nigra. Crew members must wear their approved overalls.

The exact time schedule for these convoys will be published in a Bulletin.

Access to the holding area in front of the finish podium Porta Nigra Trier will be limited to officials and to media representatives holding the appropriate pass.

Each crew may nominate a driver to drive the car under the organiser's supervision (convoy) from the holding area to the final Parc fermé Viehmarktplatz Trier and/or to final scrutineering.

In the event that the car is not driveable for any of the above procedures, this must be reported to the Clerk of the Course who will arrange transport by a recovery vehicle, if possible. In any case, the crew members concerned must still attend the podium finish procedure.

Only upon presentation of the parc fermé pass issued with the rally materials may a car be removed from the final parc fermé by the drivers or their representatives, once the stewards have authorised to open the final parc fermé.

The competitors are themselves responsible to respect the number of laps which are clearly indicated in the Road Book.

If the number of laps is exceeded, the time set, including all completed laps, will be counted. If the number of laps completed is below the prescribed number, the crew is considered to have failed to complete the section and Article 46 of the 2016 FIA WRC Sporting Regulations will apply.

Start procedure:

- At this venue a manual start procedure will be used. After handing back the time card to the crew, the timekeeper will count down aloud: 15”, 10” and the last 5 seconds one by one. When the last five seconds have elapsed, the starting signal will be given.
- The actual starting time (hour, minute, second and tenth of a second) recorded on the starting line by photocell will be entered on the Time Card at the SS Stop Point. For the start time as per Article 33.3.5 of the 2016 FIA WRC Sporting Regulations, only the hour and minutes shall be taken into consideration.
- All crews who have been allocated a start time interval of 2 minutes at the start of Section 1 will have at least an interval of 1.40 minutes between their start time and the start time of any other crew. All other crews will have at least an interval of 40 seconds between their start time and the start time of any other crew.

- Crews starting their second run of the stage will start between crews starting their first run.
- All crews who have been allocated a start time interval of 2 minutes at the start of Section 3 will normally have a minimum interval of 1 minute between their start time and the start time of any crew attempting their first run.
- All other crews will have a minimum interval of 30 seconds between their start time and the start time of any crews attempting their first run. For the start time as per Article 33.3.5 of the 2016 FIA WRC Sporting Regulations, only the hour and minutes shall be taken into consideration.

12.8.2 Environmental prescriptions:

The compliance with the environmental and safety prescriptions (see also Supplementary Rally Regulations) will be carefully checked by officials. Please make sure that all team members are aware of these prescriptions.

- The service park is located in a sensible water protection area. Both organiser and participants must undertake all efforts to protect the environment – in particular water and soil.
- **Cleaning of vehicle components**
Several facilities (water containers and water connection) will be available in the service park nearby the service park headquarters from Monday, 15 August 2016. **Please bring your own high-pressure cleaners, if required. The use of high-pressure cleaners or water hoses for cleaning purposes is prohibited at all other locations in the area of the service park.**
- The crews are obliged to put a sufficiently large plastic ground sheet under the competition car as long as service works are carried out on the car. The ground sheet must be sufficiently strong, have no damages and be tight, i.e. impervious to oil, fuel, cooling and brake liquids as well as to battery acid. **Any residues such as water, oil, fuel, any other liquids, dirt and similar must be collected from the ground sheets, the use of wet vacuum cleaners is recommended, and be disposed environmentally-friendly (e.g. into the containers at the high-pressure cleaners facilities provided by the organiser).**
- The crews are required to see that no substances hazardous to water pass over the edge of the ground sheet and into the ground, even in the case of rain.
- The service crews must be in possession of oil absorbing materials and have available a container for used oil and brake fluid at any time during the event.
- Due to official instructions, competitors must avoid any pollution of the environment. Any waste, wrapping material, spare parts, empty oil or colour tins, batteries, etc. must be collected and given to a waste disposal by the competitors themselves. Used oil must be collected and brought to the containers made available in the service park for this purpose.
- Containers with substances hazardous to water such as oil, fuel, cooling and brake liquids, chemical substances or cleaning agents must not contain more than 20 litres per unit. No more than 100 litres of the above substances may be stored inside a vehicle if no safety devices such as collecting tray are provided.
Any such empty containers must be disposed at the collection points for hazardous goods inside the service park and/or with Panta Distribuzione S.p.A. for fuel containing devices.
- To enable a smooth operation of the rescue teams in case of an accident, all containers with liquid and non-liquid chemicals (e.g. cleaning agents) must carry labels which clearly identify their contents.
- Smoking is forbidden at a distance of less than 10m from containers with inflammable contents (e.g. fuel for generators), even if the containers have been emptied. A solid barrier must be provided between the storage area of any such containers and eventual spectator areas before, during and after their use. Any infringement will be reported to the Stewards.

12.8.3 Cash Deposit

Each area in the service park must be left in a clean condition and without any rubbish. Before leaving the service park, each competitor must report to the service park headquarters staff during the service park opening hours to get clearance for the corresponding area. On Sunday, 21 August 2016, the staff will be available until 22:00hrs and on Monday, 22 August 2016, between 08:00 and 12:00hrs (or upon special agreement).

Please note that for this purpose, a cash deposit of 100 € for each competitor will be required at Administrative Checks. Each competitor will get a corresponding receipt and this deposit will be reimbursed by the service park HQ staff upon submission of this receipt and after clearance of the competitor's service park area.

12.8.4 Car wash facility

A rally car wash facility will be available on Thursday (Shakedown), Friday, Saturday and Sunday each time prior to the cars entering the regroup area/service park Trier. See Road Books for exact locations.

12.8.5 Fuel tank calibration zone

For the use until Thursday, 18 August 2016, a fuel tank calibration zone nearby the refuel area at the service park Trier will be provided. Any emptying or refilling of fuel in the area of the Messepark Trier may only be carried out in this zone and under the competitors' own responsibility.

12.8.6 Dismantling of facilities

Any dismantling of service area facilities before Sunday, 21 August 2016, 15:30hrs, must be made at times when there is no rally traffic inside the service park (see Itinerary) unless any such dismantling is exclusively carried out within the periphery of the corresponding team area itself (without using any kind of traffic lanes or team external areas).

- The competitors concerned will be informed on a compulsory meeting with the route note car crews. It is sufficient if one representative of each team attends.
- Any infringement of these provisions will result in the immediate withdrawal of the specific identification issued by the Organisers, without prejudice to any other sanction imposed at the Stewards' discretion.
- The time for the distribution of the speed control devices for all drivers entered with a World Rally car, which must be used during reconnaissance (see Art. 11.5.1 of the 2016 FIA WRC Sporting Regulations), shall be co-ordinated with the official supplier at the latest when the recce systems are returned.
