01 INTRODUCTION AND WELCOME

TOP LEVEL COMPETITION AND SAFETY

From April 27 to 30, 2017 the most powerful, light and aggressive cars that have ever been seen in the FIA World Rally Championship will come to Argentina for the first time so as to be part of the 37th edition of Rally Argentina.

Once again, the bet is on safety. Organizers were focused on choosing the competition stages for the new generation of the world rally cars based on two fundamental conditions: the sporting interest and the safety control conditions.

The curtains will drop on April, Thursday 27th in Cordoba's downtown with a great show of a strong media impact with a renovated track that will combine gravel and tarmac for the local public to enjoy the first aperitif of what the competition will be. It will be an improved and extended proposal after last year's success.

On Friday 28th, the roar of engines will be heard in Santa Rosa de Calamuchita, with two identical loops to be held in the morning and afternoon. It will start in San Agustín-Villa General Belgrano, which hasn't been run since 2008 and then Amboy-Santa Mónica and Santa Rosa-San Agustín to finish at noon and late afternoon in the mirror racing track of the Theme Park in Villa Carlos Paz.

On Saturday 29th, organizers will work together with the TV production crew since they have chosen to change the direction of the classical stage Tanti – Villa Bustos to the opposite one. The day will continue with other classics: Los Gigantes-Cantera el Cóndor and Boca del Arroyo-Bajo del Pungo. In the afternoon, the same loop will take place in the Punilla Valley with the footages of Tanti-Villa Bustos to be broadcasted live worldwide.

Sunday's closure has become a tradition and the distinctive stamp of Rally Argentina: the landscape of traslasierra, with a stage in Mina Clavero-Giulio Césare and a loop in El Cóndor-Copina.

New cars, better stages and the emphasis once again on safety. The final countdown is on!
