Vodafone Rally de Portugal Environmental Policy

According to the Environmental Certification Framework, the Automobile Club of Portugal, while organizer of the Vodafone Rally de Portugal obtained in 2016 the accreditation **Progress towards Excellence** by the FIA Institute for Motor Sport Safety and Sustainability.

It is the organisation's goal to proceed with the improvement work and minimize the environmental impact of the event, continuing the implementation of the necessary measures to achieve the top level accreditation, **Achievement of Excellence** in accordance with the FIA's Sustainability Program until 2018. As one of the WRC events hosting a great number of spectators, the Vodafone Rally de Portugal expects to be an example in terms of environmental issues, both nationally and internationally.

In this scope, the organizer established a partnership with the Ministry of Environment, through the Portuguese Environment Agency, in order to minimize the environmental impact caused by the event.

Therefore, the Vodafone Rally de Portugal will consciously make every effort to ensure that the environmental impact is minimised, putting into practise the following actions:

- a) Comply with relevant environmental laws and regulations, and other environmental requirements as well as the FIA Institute Environmental Certification Framework;
- b) Inform and train all involved in the organisation with its environmental policy;
- c) Promote the environmental awareness within the different agents (organisation, drivers, teams and spectators);
- d) Cooperate with environmental agents;
- e) Take into account the environmental work and impact, by choosing environmental responsible partners and suppliers, as well as selecting products and services using adequate environmental performance;
- f) Reduce the environmental impact in terms of transportation, as far as possible;
- g) Save energy and use renewable energy sources whenever possible;
- h) Implement measures to promote a selective waste collection and propose an adequate final disposal of waste produced during the event;
- i) Comply with relevant environmental laws and regulations, and other environmental requirements;
- j) Evaluate and improve our environmental responsibilities based on structured and planned work;
- k) Involve all the local authorities;
- l) Reduce the number of documents printed on paper, favouring the use and consultation of documents in digital formats.

1.0 INTRODUCTION AND WELCOME

The Rally celebrates 50 years!

It is with great pleasure that I welcome you to the Rally de Portugal, which is celebrating its 50th Anniversary this year.

Coincidentally, the golden jubilee of the Rally brings great novelties for the fans. Changes in the World Championship result in new WRC cars, more competitiveness, and spectacularity, ensuring the competition a renewed vitality.

The Vodafone Rally de Portugal promises therefore to be a modern rally held in a region of great beauty and with some novelties on the itinerary.

The Exponor, in Matosinhos, will host, once again, the Service Park, as well as the majority of starts and finishes. The first day will remain unchanged, with the start in Guimarães and the SSS1, in Lousada.

Friday presents several innovations – Viana do Castelo has a new layout, while Caminha and Ponte Lima are run in the opposite way. At the end of the day, another show of singular beauty with the Braga Street Stage, a 1.9 km test in the historical city centre which will be run twice.

Saturday will now start with a revised Vieira do Minho test and welcomes the Cabeceiras de Basto stage. The day ends with Amarante, the Rally's longest test.

Sunday will also feature some changes, with Fafe as the centre of all the action. The Luílas and Montim stages are now in-between the mythical Fafe double passage (the second one as Power Stage and representing 5 extra points for the Top 5).

The support of our sponsors has been essential for the success of the event – Vodafone, BP, Hertz, and Skoda. I would also like to thank the municipalities of Amarante, Braga, Cabeceiras de Basto, Caminha, Fafe, Guimarães, Lousada, Matosinhos, Paredes, Ponte de Lima, Viana do Castelo and Vieira do Minho, as well as the Turismo do Porto e Norte and to the North Regional Coordination and Development Commission (Comissão de Coordenação e Desenvolvimento Regional do Norte – CCDRN).

A special word is also due to a very relevant issue contributing to the success of the Rally de Portugal: the safety of the event and, particularly, the safety of spectators. The huge popular enthusiasm stirred by the Rally de Portugal should always be an added value to the tourism in the North of the country. The safety of the event is decisive, and only the commitment of all the WRC Vodafone Rally de Portugal will be, yet again, an event crowned with success. The 50th Anniversary of the Rally deserves it.

To all, ACP wishes the greatest success.
