INTRODUCTION AND WELCOME

REINVENTING A CLASSIC

With its passage through the three valleys of the hills of Cordoba, and the thousands spectators who settle on the side of the roads to enjoy it in a ritual that lasts over a day of wait, the itinerary of Rally Argentina has become a classic of the FIA World Rally Championship (WRC).

In 2018 the route is reinvented to double the challenge and bring new opportunities for the fans. On April 26 to 29 the world rally cars will pass at full speed through new and modified stages specifically chosen, with an eye put on safety and on maximum competition.

The event will start on Thursday April 26 with the spectacular street stage in the heart of Cordoba City.

On Friday 27th, the action will move to Calamuchita Valley with two passages over Las Bajadas – Villa del Dique, Amboy – Yacanto that is back after 3 years of absence, and Santa Rosa – San Agustín. At midday, on the way back to the Service Park in Villa Carlos Paz, rally cars will complete two laps over the amazing Super Special Stage of Parque Temático.

Saturday 28th comes with many news. The day will start with a completely new stage to the WRC, Tanti-Mataderos that promises to bring speed with a winding fast route, of wide turns and smooth slopes. Then it will be the turn of a shorter version of Los Gigantes finishing in Cuchilla Nevada. A renewed Cuchilla Nevada-Río Pintos will complete the loop, including roads of different stages run in the past edition of the event.

At midday fans will be able to enjoy again the circuit of Parque Temático in Villa Carlos Paz, where two cars will test each other side by side in a simultaneous start. The morning loop will be repeated in the afternoon.

The scenery of the grand finale will be on Sunday 29th in Traslasierra, with a new version of the iconic El Cóndor, this time in climb from Copina. This change of direction, apart from a greater safety control, will offer a new sporting challenge and a different perspective for spectators and media. The stage will be run twice, the second time as Power Stage after the renowned Giulio Cesare-Mina Clavero.

It is the most promising itinerary of the last years.

You cannot miss it! Always from the spectators' areas.
