1. INTRODUCTION & WELCOME

1.1 WELCOME FROM RALLY AUSTRALIA

Dear Competitor

I'm pleased to introduce this Rally Guide 2 for the 2018 Kennards Hire Rally Australia. The Guide reveals many changes for this year's closing round of the FIA World Rally Championship – the 26th Australian WRC, incidentally.

Clerk of the Course Wayne Kenny and his organising team have listened to driver and fan feedback after 2017 and as a result the challenge for this year will be very different from the first day to the last.

The competitive distance totals around 318 kilometres over 24 stages. Only six stages, including the Destination New South Wales Super Special Stage to be run twice on Friday and Saturday evenings and the daytime Sherwood Special Stage. For fans, we've re-located the opening Rally Show and Ceremonial Start to a beautiful area on the Coffs Harbour Waterfront, which will facilitate attendance by bigger crowds. This move also has allowed us to move the podium finish from the city centre to the spectator point on the Wedding Bells Power Stage. We expect making it easy for fans to watch the podium ceremony almost straight after the last car has passed will increase the crowd there too.

We're creating more attractions at the Destination New South Wales Super Special Stage and the service park, which has been re-named Rally Central to help fans understand that this really is the exciting hub of a WRC event.

The 2018 WRC season is proving even more thrilling than before, if that's possible. We're looking forward to an exciting finale and the part every crew and team will play in staging a memorable Kennards Hire Rally Australia. The organisers will be doing everything possible to make your experience as competitors rewarding, fun and hassle-free.

Finally, while the rally will be your focus, I hope you are able to take an opportunity during your visit to enjoy the magnificent Coffs Coast host region. It's home to so many wondrous natural attractions, from rainforest to ocean, and abundant cultural experiences.

I look forward to welcoming you on 15th-18th November.

Ben Rainsford
Chairman - Rally Australia

5.3 ENVIRONMENTAL

Rally Australia was the first World Rally Championship event to develop a comprehensive environmental management program that was recognised in 2013 by the FIA as world class. We ask that all competitors be mindful of the sensitive environment within which the rally is conducted. In particular, please use the recycling and other facilities provided within the Service Park responsibly. The Service Park area drains directly to a Marine National Park. Fuel, oil, lubricants and chemicals must be securely contained and leaks and spills immediately cleaned up. Used oils, coolant and lubricants as well as hazardous wastes such as batteries, chemicals and glass should be disposed of in the designated facilities clearly marked around the service area. If assistance is required seek help from the Service Park management team who have access to additional spill clean-up materials and they can also call in one of our specialist environmental response teams. A car wash facility for rally cars will be provided near to the Service Park and will be noted in the Road Book. A wheel wash area will also be established near to the Manufacturer service areas within the Service Park. Please do not use pressure cleaners within the Service Park except in the areas designated by Rally organisers where the runoff can be contained and disposed of. Breaches of environmental controls may be noted by an official of the rally and could result in a report to the Stewards with a recommendation that a fine be applied.

20.9 DRIVING IN AUSTRALIA

All overseas visitors must carry their valid overseas civil drivers licence when driving in Australia. If the licence is not in English, an official English translation or an International Driving Permit must accompany the licence.

If the overseas licence is a licence to drive cars, then the holder may drive vehicles of the kind covered by a NSW Class C driver licence (up to 4.5 tonnes GVM and seating up to 12 adults, including the driver).

If the overseas licence is a licence to drive heavy vehicles, then the holder may drive vehicles that are authorised by their overseas licence class.

In Australia all vehicles travel on the left side of the road.

The maximum speed limit in cities and towns varies between 40-60kmh. On country roads and main highways, the maximum speed limits are typically 100 or 110kmh, as signposted.

New South Wales uses many fixed speed cameras as well as mobile cameras and lasers to monitor speed. Each occupant of a vehicle must wear a seatbelt at all times.

The use of a hand-held mobile phone while driving is an offence in Australia and can result in a hefty fine.

20.13 AUSTRALIAN VISAS

All Australian visa requirements and forms can be obtained online at

<https://www.homeaffairs.gov.au/Trav>

Temporary visitors from many countries can apply online (before you depart for Australia) for an e-Visa, which is supplied at no cost:

<https://www.homeaffairs.gov.au/trav/visa-1/651->

If not eligible for this e-Visa, team personnel are required to obtain either a Sporting or Business Visa in order to gain entry into Australia to compete in the event.

It is essential that your visa application is completed before you board your flight to Australia.
