## **1.2. Rally Description**

ROMA - An impressive route to the 6th Rally of Rome Capital, scheduled from 18<sup>th</sup> to 21<sup>st</sup> July 2019, a race having the validity as the stage of the European Championship Rally FIA, the Italian Rally Championship and the Italian Cup - Regional Championship. 36 are Municipalities involved and nearly 1000 kilometers of route with 15 special stages; the event, organized by Motorsport Italia and co-ordinated by the Roman driver Max Rendina, will be the protagonist of a vast territory of Lazio with timed stages that will take place in Rome and in many places in the south of the capital until arriving at the town of Pico. Below the program:

### **SS 1 / 4 – PICO-GRECI Km 19.46**

**– Saturday 20<sup>th</sup> July**

**first run at 9:33 – second run at 15:52**

No doubt: it is a very hard stage. It begins hostilities on Saturday and its result can outline the values in the field. The route is narrow and rough and the driver will make the difference, also because the road profile has little irregularities that test the distribution and the driving accuracy. The stage is identical to the previous edition of the rally.

### **SS 2 / 5 – ROCCASECCA-COLLE SAN MAGNO Km 13.93**

**– Saturday 20<sup>th</sup> July**

**first run at 10:28 – second run at 16:47**

The tarmac is for a large part in a very good condition, with a lot of grip where it's important keep a good speed. It reminds a bit of the second day of Rocca di Cave special stage, because there is a series of hairpin turns, alternated with some demanding sprints. You climb till about 900 metres above sea level. At the end of the stage things become harder therefore you have to be very careful.

### **SS 3 / 6 – SANTOPADRE-ARPINO Km 21.17**

**– Saturday 20<sup>th</sup> July**

**first run at 11:18 – second run at 17:37**

This test is 70% identical to that of edition 2018 when the first edition of the Rally di Roma Capitale took place. The stage is now longer and the novel part is in the middle of the stage: a 4.4 km variant that is quite wide at the beginning but that tends to get narrower later on into the village of Santopadre, before rejoining the old itinerary run in 2018 through a very twisty section. Such a driven section continues all the way to the end of the stage.

### **SS 7 / 11 – AFFILE - BELLEGRA Km 7.34**

**– Sunday 21<sup>st</sup> July**

**first run at 8:28 – second run at 12:36**

A new entry of edition 2019. This test is only 7.3 km long. The start is at the exit of the Affile village and is downhill, very fast and technical until when it joins the SP 61/A. The second part goes uphill towards Bellagra and is quite fast, with some very spectacular hairpins breaking the rhythm.

### **SS 8 / 12 – ROCCA DI CAVE Km 7.25**

**– Sunday 21<sup>st</sup> July**

**first run at 9:05 – second run at 13:13**

In 2019 this stage will be shorter, but it will feature the 18 up-hill hairpins in 5 km leading up to Rocca di Cave. From there, the test becomes more driven but also quite fast and the end of the stage is located in Capranica - Prenestina. This is quite a classic test of the Rally di Roma Capitale.

### **SS 9 / 13 – ROCCA SANTO STEFANO Km 19.70**

**– Sunday 21<sup>st</sup> July**

**first run at 9:22 – second run at 13:30**

The stage of edition 2019 has been devised on the second part of that used in 2018. This is a long test that will start in Capranica with a very technical and fast initial sector that also features several rhythm changes until Rocca Santo Stefano, where a steep and challenging descent leads to the end of the stage. This will be quite tough of tyres and brakes.

### **SS 10 / 14 – GUARCINO Km 11.75**

**– Sunday 21<sup>st</sup> July**

**first run at 10:18 – second run at 14:26**

The special stage is the same of the past editions. However it is an important date with the stopwatch because the hilly stretch of road is very fast and driven and so cars constantly run at full speed.

### **SS 15 / 16 – OSTIA SUPER STAGE – ARENA ACI ROMA Km 1.10**

**– Sunday 21<sup>st</sup> July**

**first run at 19:05 – second run at 19:15**

On Sunday afternoon, the final day of Rally di Roma Capitale, Ostia will stage one of the most highly spectacular moments. The two passes on the road circuit in front of a big crowd – that could enjoy the show also through the maxi-screens – will definitely provide intense emotions. Edition 2019 will be a surprise for Italian rally, only following the rally one could dive into the exciting and fascinating atmosphere of this motorsport show.

The water has been used in Italy since as early as the 14th century and is famous for its natural healing properties.

Fiuggi is divided into two parts, the upper and lower. The area where the springs are located is called new Fiuggi, or Fiuggi Fonte at the base of the hill (it was developed during the Middle Ages so it is not all that new). The upper part, or old Fiuggi, is 760 metres (2,500 ft) above sea level. The natives call it "Fiuggi Città". Fiuggi Città is a medieval fortified village, which was around even before Roman times.

## Deposit : € 150

RDS Ltd. receives, as security deposit, € 150.00 (or valid identity document) from the competitor for the rental of n. 1 Tracker GPS. The deposit can be requested by the competitor and be refunded at any time upon return of the Tracker GPS and presentation of this receipt. RDS Ltd. reserves the right not to refund the deposit in case of loss, damage or tampering of the GPS Tracker.

## 5.2. Tracking System

The GPS Tracking System RDS is a GPS / GSM communication system by which all competitors of a rally are monitored along the route of the special stages and transfers. Data from GPS devices installed on your vehicle are transmitted to the RDS server and made available to the Race Direction for the purpose of monitoring the race for safety reasons and sports. The GPS tracking system is mandatory for all Rally events (please read Regulation ACI Sport Service).

### The system Tracking System GPS RDS consists of two devices:

#### Rally KIT

(purchased and installed by the crew)

#### BOX GPS

(owned by RDS)

The "Rally KIT" consists of a box with a SOS request button, spies monitoring supply and wiring connection to the Battery, the IGNITION and "GPS BOX" RDS.

The crew will purchased it and installed it on the car in a stable and permanent way according to the preferences of the pilot and the navigator, but, in all cases, according to criteria set by ACI Sport Service.

Among the most important indications: the SOS request button must be accessible from both members of the crew and with seat belt.

For the installation, see the documentation provided with the kit.

Before any race, the RDS technical staff will connect your "GPS BOX" with the "Rally KIT".

At the end of the race the "GPS BOX" will be uninstalled and disconnected from the "Rally KIT".

**ATTENTION.** Both the GPS BOX and the Rally KIT are provided with SOS button. It is reminded that this key must be used exclusively for a possible request for RESCUE. Pressing the SOS button, the Race Direction will be promptly informed about the emergency.

In the GPS BOX there is also the "OK" button to indicate that "at the present there are no alarms or warnings".

## Installation and Positioning

### Installing the Rally KIT predisposition.

The Rally KIT will be installed by the owner of the vehicle, following the wiring diagram in the package (or they can be downloaded from the site [www.rdsitalia.it](http://www.rdsitalia.it)). In the Rally KIT there is the SOS request button.

The SOS button of the Rally KIT must be easily accessible from both members of the crew with seat belt.

The connector for the GPS BOX (coloured black-blue, in the Rally KIT) has to reach the uppercentral area of the dashboard or, alternatively, the right front roll bar so as to be easily connectable to the GPS BOX.

### Installing the GPS BOX.

The BOX GPS will be installed by the staff of Tracking System during the pre-event checking.

Also in this device there is a SOS button and it performs the same function as the one placed in the Rally KIT.

It must be placed under the windshield so as to ensure the proper functioning of the GPS survey ("sky view"). For safety reasons, any other position is not allowed.

It will be positioned on the upper-central part of the dashboard or, alternatively,

on the right front roll bar. The alternative location (roll front right) is to be preferred if and only if the pilot believes that the lights of the SOS buttons and OK disturb driving during the race. It will be returned to staff only after the race.

### IMPORTANT:

Under no circumstances it is allowed to tamper with both "Rally KIT" and "GPS BOX". The Competitor and the Organizer agree not to tamper with, intervene, remove and / or physically compromise these devices and their functionality.

Any interference or alteration will cause the reporting of the competitor to the Stewards or the Single Judge for the measures that will be considered most appropriate.

Each technical issue and observation must be addressed to the supplier of the product.

## What will the crew have to pay?

- The payment of the Tracking System service is included, unless otherwise noted, in the entry fee to the event.
  - The **Rally KIT** will be bought only once and will be owned by the buyer. The price is **€ 61.00** (€ 50.00 + VAT).
  - For cars from abroad, performing occasionally races in Italy, there is no obligation to purchase the **KIT Rally**. In these cases the **KIT Rally** will be hired for the price of € 15,00. The **KIT Rally** will be returned to RDS only after the race along with the GPS BOX.
  - In any event, during the sport checks, it is also required a payment of **€ 150.00** as deposit (or a document), which will be returned after the race at the time of the withdrawal of the GPS BOX and upon presentation of the receipt issued at the time of payment. Any GPS BOX that, due to majeure force, will not be returned or collected after the race, must be sent to the RDS Srl company via courier and expenses borne by the applicant, within 3 days.
- Upon receiving the GPS BOX, the deposit will be given to the competitor.

## Service subscription - Privacy

By subscribing to the event you will automatically accept the privacy legislation linked to the service Tracking System.

The data collected will be used to carry out properly the service of tracking during the race to which we are about to participate.

## Assistance during demonstrations

Unless otherwise indicated, the RDS personnel will be present to the Service Park, to provide assistance to all the crews, treat the return of the trackers and return the deposits previously paid by the crews. However, it is not excluded that the return will take place at the RDS station in Race Direction or other place / environment. This will depend on the location of the areas and how the event is organized.

In the hope that this document has been helpful and has cleared any doubts, RDS gives all riders a sincere "good luck" and have fun.
