1. Introduction and welcoming

Although time passes and we are leaving behind editions of the Rally Islas Canarias, it is always a special moment to address all that group of fans, which is undoubtedly one of the greatest actives that this event has. It is your dream, yours, that drives us to improve year after year and it is your passion that helps us face each edition with the encouragement of reaching further.

We reached number 44 firmly established in the FIA European Rally Championship, the second most important international championship, which will allow us to have some of the drivers, co-drivers and teams that, very soon, will reach the FIA World Rally Championship. We can boast of having seen through our stages, names that are legend of motorsport thanks to the Rally Islas Canarias and being in this championship of continental nature is a guarantee of quality of participants and mounts and diversity of nationalities.

As a member of the organizational team, I recognize that it is a responsibility to know that, year after year, our rally bears the name of Gran Canaria and the Canary Islands to millions and millions of homes around the world. That is why we strive to offer an attractive itinerary for the teams, but also capable of transmitting to viewers all over the planet the natural and scenic wealth of our Archipelago. In this sense, the collaboration of the municipalities that make up the island of Gran Canaria is key.

In 2020, the Organizing Committee has wanted to support the municipalities that were affected by the wildfires last summer. The commitment of the event with the Canarian society is very important and we could not be oblivious to the pain we all suffer; Therefore, we want the passage of the rally through these different points to help revitalize the economy of those affected areas.

On the other hand, if it is a pride to represent Spain in the FIA ERC and in the Spanish Championship, it is also once again the act of representing the Canary Islands in the second edition of the calendar of the Spanish Superchampionship.

We believe that with all these 'wicks', the 44 Rally Islas Canarias will be the sporting event of the year in our country. Enjoy it.

Mr. Germán Morales

President of the Organizing Committee of the Rally Islas Canarias

20. List of useful Facts and Services

Climate in Gran Canaria

The Gran Canaria's Climate is characterized by an average annual temperature between 18 and 25°C, with an estimated annual rate of 2.700 hours of sunlight, and a fresh and humid wind, coming from the Azores' Anticyclone, the trade winds.

Due to the unusual relief of the island there can be found a great variety of microclimates. On the southern slopes of the island, in coastal areas, the climate is dry and sunny almost all year round. In areas of higher altitude, the influence of the sea is reduced and the clouds are detained by the mountains; that produces great variations of temperature from the temperature of Midlands or valleys and subtropical forests to the highest areas, where the temperature can reach 0° C. This allows people to enjoy completely contrasted climates in two different areas of the island.
