## 1 INTRODUCTION

### 1.1 WELCOME NOTE

Welcome to *Rally Liepāja* – a rally that in 2021 will run after Midsummer's festivities have finished, on July 1–3. Historically, rally has been hosted during all seasons – the first three years it was a winter event, then for another three it moved to autumn, then switching to spring, and now, for the second time, to summer. To say the least, we have gotten used to this kind of changes, but there is one very important change for 2021 – the rally will finish on Saturday, not on Sunday, how it was all the previous times.

Other than that, *Rally Liepāja* will retain its conceptual structure with special stages covering a vast geographical area, reaching from Talsi all the way to Liepāja – all meant to keep the stages unique and challenging for the competitors. The rally week will begin with extensive testing by the teams – for your convenience, there will be options for private test sessions on Monday and Tuesday, as well as official tests will be organized on Tuesday, in Talsi region. Reconnaissance is scheduled for Wednesday and Thursday, followed by qualifying stage near Liepāja on Thursday afternoon, and ceremonial start of *Rally Liepāja* later in the evening in rally city Liepāja. And finally, *Rally Liepāja* special stages – all the action moves to Talsi region on Friday, with the crews moving back to Liepāja region for Saturday's deciding stages.

*Rally Liepāja* rally centre will once again house at the cosy *Liepāja Olympic Centre*, which is just a few minutes' walk away from the service park (Jaunliepājas market) and the start/finish podium (next to the *LOC Manēža*). Administrative checks will be done online – to make sure, that once Administrative checks commence at rally centre, it takes as little time as possible to complete all the formalities and receive all the route documentation and other materials.

However, I would like to draw your attention to Covid-19 and effort to minimize the spread of this virus. This is still an ongoing fight in Latvia, as well as all over the world; thus, there are a lot of uncertainties related to running of the event. I ask for your patience and understanding, as all the requirements, restrictions, and rules are established in order for the rally to comply with all the regulations, and with only intention to take care of all our health. Also, I ask competitors and their representatives to regularly visit the website of *Rally Liepāja*, where all the Covid-19 related information will be published. Please, make sure that you are up to date with all the updates and changes, and that all the formalities are done in a timely manner, reducing any possible mishaps or misunderstandings that might arise close to the start of the rally.

And finally, let us all involve and support our ongoing initiative to protect the environment and our effort to establish a sustainable *Rally Liepāja*. Let us think, plan, and carry our actions in a smart way – so that our everyday whereabouts not only during the rally, but also before and after the rally, are carried out in a way with the least possible negative impact on Earth, the place we are all living. Let it stay green, safe, and beautiful.

Enjoy Talsi, Liepāja, and Latvia!

**Raimonds Strokšs, RA Events director**

## 1.3 REGULATORY POWER OF THIS DOCUMENT

This document has no regulatory power – it is just for information only. All information can be changed or added; updates will be published on [www.lvrally.com](http://www.lvrally.com).

## 2 COVID-19

### 2.1 COVID-19 PROTOCOL

This Covid-19 protocol has been created based on regulations set out by the FIA and Cabinet of Ministers of Latvia, as well as recommendations of the Centre for Disease Prevention and Control of Latvia and Ministry of Health of Latvia. This protocol must be followed by all competitors, team members, personnel, and official persons.

The protocol includes rules and requirements that must be followed when traveling to Latvia, crossing the border, arriving at rally location, Covid-19 testing, and other rules that are enforced to limit the spread of Covid-19 virus during the rally. The protocol is published on the rally website [www.lvrally.com](http://www.lvrally.com).

### 2.2 EXCHANGE OF INFORMATION

In regard to Covid-19, each competitor shall appoint one representative that will be responsible person for the exchange of information between the competitor and rally organiser. When submitting your entry, contact details (phone number, e-mail) of this representative shall be sent to [rally@raevents.lv](mailto:rally@raevents.lv), clearly identifying competitor.

This representative will be responsible for providing all requested information and ensure that competitor's team is following the Covid-19 protocol – starting from traveling to the rally, during the rally, and ending with defined time after the rally.

Accreditation to the rally and access to the *High Density* areas of the rally will be granted only to those persons, who have been indicated as team members by the representative of the team.

## Rally Liepāja – sustainable event with care for the future

**RA EVENTS – the organizer of Rally Liepāja** – has been arranging various motorsport competitions in Latvia for more than 10 years. RA EVENTS strives to achieve the highest level of quality in each of its projects, serving as an example of good practice for others as well. Following the global topicalities and the **FIA Action for Environment programme**, the organizer of **Rally Liepāja** is willing to continue to pay increased attention to sustainability in 2021.

The aim of the Rally Liepāja Sustainability Program is to reduce the negative impact on the environment by inviting all parties involved to think about the long-term future, by making responsible decisions and acting sustainably today. In order to implement this, it is necessary to be aware of, measure and control the impact of each process and activity on the environment, therefore, the rally organizer will encourage the rally competitors, media, staff, fans, as well as cooperation partners and suppliers to think about environmental protection and sustainability.

Rally Liepāja calls for the following activities:

- 1. Travel responsibly** – optimize transport, accommodation and travel costs;
- 2. Treat with respect to other property**, the urban environment and local people;
- 3. Do not pollute the environment** – reduce the amount of waste, choose recyclable products, collect waste;
- 4. Sort waste** – where possible, use waste sorting bins, always keep in mind: reduce, reuse, recycle;
- 5. To reduce the amount of used resources** – to reduce the consumption of water, energy, fuel and electricity, waste and printing materials;
- 6. Be socially responsible** – attract employees from local regions, make the event accessible to people with disabilities;
- 7. Make responsible choices for sustainable living** – choose environmentally friendly products, reducing their ecological footprint and impact on the environment.

Rally Liepāja encourages to think about environmental issues not only during the rally, but also on a daily basis – by evaluating the daily habits, there is an opportunity to reduce the negative impact on the environment. The Rally Liepāja team is convinced that by making the right choices today, the chance for the sustainable future is given.

## 23 RALLY CITY – LIEPĀJA

*Liepāja will always greet you. Just venture a look.*

*Liepāja will greet you with a smile. Reciprocate.*

*Take the smile with you, there is always more.*

*Come to the Latvian capital of creativity and find out for yourself.*

### Beach and wind

Discover Liepāja – a city of wind – it describes both the city and her people. The wind and the storms leave vivid marks on the city offering a fresh outlook day after day. The wind teaches, moulds and makes us stronger.

Liepāja beach is 50-80 metres wide and 8 kilometres long. The sign of an exquisitely clean swimming place – The Blue Flag – is a self-evident evaluation of the coast. The sand on the beach is particularly fine and white.

Liepāja beach is the first place in Latvia to accommodate swimmers with vision and mobility impairments – featuring special audio buoys, aquatic wheelchairs, access to the sea over wide and easy to use boardwalks.

Liepāja and amber – these two words go together as organically as sky and land. After storms the beach is a place to hunt for these famous gems of the North.

*Wave height is the greatest in December – 0.9 metres, and the lowest in April and May – 0.5. The wind is strongest in January – 4.8 m/s on average, and most tranquil in May – 3.3 m/s. Liepāja is protected by three breakwaters – the Northern, the Southern, and the Dividing.*

## Parks

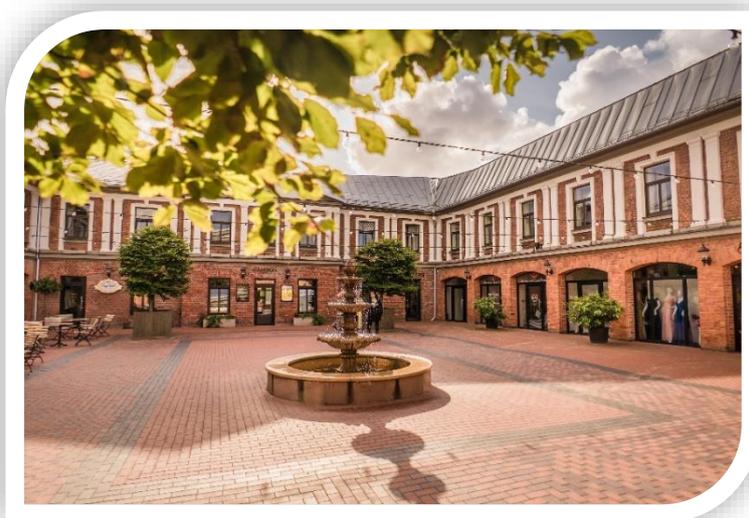

The city's green ornament consists of large areas of forest, as well as specially designed parks and squares, which are both relatively small in size and up to 50 hectares wide.

Liepāja has 7 parks. The largest of them – the three-kilometre-long Liepāja Seaside park with an area of 50 ha is currently one of the largest planted parks in Latvia where around 140 local and foreign tree species grow. The park is a place for both sports and for children to play, in summer it is brimming with an abundance of events, concerts and lots of fun.

A bicycle path traverses the length of the park, beyond which it meanders for 40 km through the whole city. Another favourite is Jānis Čakste Square, named after Latvia's first president. This is the place for celebrating national holidays, holding concerts, and strengthening the nation's patriotic spirit.

## Architecture

Liepāja has always wanted to look proud and great – the romantic wooden structures of this historical resort town, unique and stately Art Nouveau masonry buildings signifying the wealth and simple modesty of the city.

A special time was that of Liepāja's head architect Paul Max Bertschy – he created the face of the city. Bertschy's buildings are vivid examples of Eclecticism, inspired by Gothicism, Renaissance, and Classicism.

The heart of the city is the Rose Square. Roses have been planted here for over 100 years, all throughout the different twists and turns brought on by history. It is one of Liepāja's unchanging values.

Peter's Market is Liepāja's largest and Latvia's second largest market – an exquisite Art Nouveau building and one of the most beautiful market pavilions in Europe. It was built in 1910 and had a very innovative design for its time featuring a glass roof and lighting.

The oldest wooden buildings in the city date back to the 17th century. An outstanding example of this is Kungu Street, which was the city's main street in the 17th century. A unique building complex has been preserved at Kungu Street 24 and in its courtyard. Currently one of the oldest wooden residential buildings in Liepāja, Madame Hoyer's hotel was once visited by the Russian Tsar Peter I. The building is currently being renovated to become an interior museum.

*The view from the Cathedral tower lets you see all of the city – check it out!*

## Culture

Liepāja hosts around 2000 different events every year or 160 every month. The city calendar is never empty. Outdoor cinema on warm summer evenings, great music festivals on the seashore, grand celebrations on national holidays.

Exhibitions, concerts, performances, lectures, shows, installations – a unique selection of activities in one place: the Liepāja Contemporary Art Forum which has already become a tradition. It is known for the highest standards in art. A place for enjoying and exploring the creative process.

Artists from around 70 countries perform in cultural events throughout the year.

Look for the Sea festival and the Līva Village Festival's lavish market in the calendar!

The locals of Liepāja love to celebrate together – join us on New Year's Eve and for the Proclamation Day of the Republic of Latvia on the evening of the 18<sup>th</sup> of November. Be sure to head over to the concert hall "Great Amber". On Lāčplēsis Day we take part in a torchlight procession from Jānis Čakste square all the way to the Northern Cemetery.

The concert hall Great Amber has become the most recent symbol of Liepāja. Besides the unique shape it also boasts outstanding acoustics. The eight stories of this modern building contain three different-sized auditoriums. Symphony, jazz, the best choirs and quality pop music can be heard here. It is home to Liepāja Symphony Orchestra and Emilis Melngailis Music school.

Liepāja theatre is the oldest professional theatre in Latvia – a superb troupe of actors; quality, award-winning performances for viewers of any age. Many claim it to be the most beautiful theatre in Latvia!

A building designed by the architect Paul Max Bertschy houses Liepāja Museum – regular and always excellent exhibitions of local and foreign works can be found next to the permanent city history exhibit. Also located in Liepāja Museum is the Kurzeme folk costume information centre.

A special treasure of the 18<sup>th</sup> century Trinity cathedral is its organ – the largest and oldest unreconstructed mechanical organ in the world, created by one of Europe's greatest craftsmen H. A. Contius. The organ has over 7000 pipes.

*Feel a piece of amber, the Great Amber, from the inside.*

*Liepāja Symphony Orchestra is the oldest orchestra in the Baltic countries.*

*Book a tour of Liepāja theatre's backstage!*

## Crafts

The Craftsmen Quarters is the warmest place in Liepāja – watch the weaving of unique blankets and tablecloths, the creation of clay tableware and jewellery. As well as scarves, belts, skirts, mittens and socks. A place with much to be overwhelmed by.

The House of Peter I is the centre of the creative quarter. Currently one of the oldest wooden residential buildings in Liepāja, Madame Hoyer's hotel was once visited by the Russian Tsar Peter I.

*Do you know how to paint on silk, create a tapestry, or make soap? Find out here!*

*The longest amber necklace – 123 meters long – also on display at the House of Craftsmen.*

## Sports

The sports infrastructure of Liepāja allows us to host international competitions and championships and serves as an excellent training base for professional athletes.

There are 8 kids sports' schools in Liepāja, 5 outdoor stadiums, 3 top level outdoor basketball courts, an Olympic centre Tennis hall, Manege, Pool and SPA, an Ice hall, as well as over 80 different sports clubs and societies.

Participants from Liepāja take part in at least 50 World and European level sports competitions every year.

The city regularly hosts sports events that have already become a tradition – World and European basketball championships, European rally championship "Rally Liepāja", and an international windsurfing competition.

Liepāja is the first city to gain the title of European city of sport.

*The only diving training school in the Baltics is located in Liepāja.*

*Liepāja is the home of NBA star "unicorn" Kristaps Porzingis (New York Knicks, Dallas Mavericks) – his gift to the city was three NBA-standard basketball courts.*

*Liepāja is the home of NBA star "unicorn" Kristaps Porzingis (New York Knicks, Dallas Mavericks) – his gift to the city was three NBA-standard basketball courts.*

## The Port

The port of Liepāja covers 1182 ha, it has 80 berths with modern equipment and storage facilities. Regular ferry traffic connects Liepāja with Travemünde, Germany, but ships from around the world moor at the port of Liepāja.

At the very heart of the city, the Trade Canal boasts a modern Yacht marina with floating docks and all amenities for sailors: just disembark and you'll be right in the middle of all the action.

Port city Promenade – providing beautiful views of ships! A place for tranquil walks during the day and a bustling nightlife in the evening

## Hospitality

You can experience the hospitality of Liepāja in a five-star hotel by the Promenade or in a modern art hotel, as well as in classic business style accommodations with a particular design.

Guest houses, youth houses and camping grounds – make your reservations early! Especially for one of the many weekends featuring large events.

*Liepāja's hospitality principle – get warm and cosy so you are ready to go out into the wind.*
