## 1. INTRODUCTION and WELCOME

Dear friends,

Welcome to the 57 RallyRACC Catalunya-COSTA DAURADA / Rally de España 2022, where we will see for the first time the new R1 Hybrid cars generation, together with FIA support championships the WRC2 and WRC3, and R-GT.

This edition will once again be counting on the support of our invaluable collaborators in the area of Tarragona, i.e. Costa Daurada, Salou, PortAventura World and the Catalan Government all of which make it possible for us to enjoy and experience the World Rally Championship in our country, having its nerve centre in the province of Tarragona.

The excellent facilities of the PortAventura World, will be hosting once again the Rally Headquarters, the Rally Control and the Media Centre and Service Park.

The PortAventura World Service Park will be the only service park used during the rally, located as usual, just a few metres away from the Rally HQ.

The rally philosophy is the following:

- On Thursday Shakedown in Coll de la Teixeta and Ceremonial Start (Salou)
- A complete 3-days of asphalt-only rally
- This year we will have 19 special stages in total, 10 of them are different.

On Saturday evening, we will have once again the chance to enjoy the Salou stage, in front of the sea and on the Promenade, where rally cars will run near the beach.

In this Rally Guide 1 you will find all the information necessary to prepare your visit and your participation in our event. Should you require any further information, please do not hesitate to contact us.

As usual, the whole organization is looking forward to helping you to make your participation as easy as possible.

See you in October!

Organising Team

### The Environment

## 2.3 Brief event history

Since its beginnings in 1906, the Reial Automòbil Club de Catalunya (RACC) has been in charge of the organisation of the most prestigious car and motorbike racing events in Spain.

The activities in the world of rallying started long ago, back in 1916, when the RACC promoted the Volta a Catalunya, the predecessor of the Rally Catalunya, which started in 1957 and was organised yearly, except for nine years, from 1965, during which it was replaced by the Rally Barcelona-Andorra.

The race became a classic event in the national calendar so that new challenges were marked on an international level in order to become part of the European Championship calendar. In 1988, the two most important rallies of the country, scoring with the highest coefficient in the European Championship, i.e. the Rally Catalunya and the Rally Costa Brava, decided to get together to become a scoring round of the World Championship.

Finally, in 1991, the FIA included the Rally Catalunya-Costa Brava, with its nerve centre in Lloret de Mar, a well-known city in the province of Girona, in the World Championship calendar.

The high organization and sporting level reached by the event is reflected by the two awards achieved in 1996 and 1997, in which the event was declared Best Rally of the Year by the World Rally Teams Association (WRTA), in addition to being considered the best event of the World Championship by the World Rally Press Association (WRPA) in 1997.

After fourteen years linked to the Costa Brava, the event changed its location in 2005, moving to the Costa Daurada, in the province of Tarragona. The event was renamed accordingly, thus becoming the RallyRACC Catalunya-Costa Daurada and recovering some of the stages raced in other editions of the rally, in which the cars visited the region of Tarragona.

The tourist village of Salou and the PortAventura theme park became the new nerve centre of the event, with a large offer of tourist services and hotel infrastructure. The facilities of PortAventura Resort are host to the headquarters, media centre and service park of the RallyRACC Catalunya-Costa Daurada.

From 2010 to 2019 we organised the only mixed rally in the WRC, usually distributed into one day on gravel and two days on asphalt.

As a novelty, in 2012, Salou had for the first time a stage in front of the sea and the Ceremonial Start was in Barcelona.

In 2014, and for the first time in a RallyRACC WRC event, a special stage was run in the area know as Montjuïc in city of Barcelona.

After a one-year break in 2020 due to rotations in the calendar and the Covid-19 situation in the world, the RallyRACC returns to the WRC Calendar in 2021 with an asphalt-only event, in compliance with the new WRC Regulations issued by the FIA.

## 5.5 Environment policy

The RallyRACC wants to announce the commitment of the Organisation with environment policies. We all make a huge effort to achieve the set targets, but we also depend on everybody's collaboration.

All participating teams are one of the keys to achieve these targets and therefore we are particularly requesting your collaboration.

- The current legislation in Spain on environmental issues, affects both institutions as well as legal entities and individuals. Our activity has a strong impact on the environment, which is why we ask the TEAMS for their utmost collaboration.
- Just as in previous years, there will be homologated containers in the Service Park, which are to be used for separate waste disposal, conveniently marked to this end. Teams are requested to use these containers as the only waste disposing site, and to respect the selective disposal procedure.
- Likewise, we ask you to take the adequate measures to avoid any incident that may lead to uncontrolled spilling, especially of liquids, outside the area that has been allocated to your team in the Service Park. Do not hesitate to contact our Service Park manager if you have any question or doubt.
- Helicopters must comply with the legislation in force as well as with the specific rules for this event, which will be provided during the usual pre-event briefing (Helicopter Pilots' Briefing).
- Failing to comply with the regulations regarding the Environment Policy may be penalised.

## 6. TWO-WAY RADIO

All radio-electric transmitter installations in cars are always subject to a previous authorization request. A frequency assignment is to be asked for at the Spanish Telecommunications Offices.

We inform you that Telecom cannot allocate frequency pairs that do not comply with Spanish regulations stating that reception and transmission frequencies must be separated.

In Spain, this separation must be:

UHF 410-465 Mhz. High frequency transmission repeater, separation between RX and TX 10 Mhz.

VHF 146-174 Mhz. High frequency transmission repeater, separation between RX and TX 4.6 Mhz.

Even with the best of intentions in order to provide us with the requested frequencies, the Telecom staff cannot legally authorise us to use frequency pairs that do not comply with these requirements.

- Radio frequencies request fees **600€** (21% VAT included)

Competitors wishing to use 2-way radios during the rally will find the Radio Licence application form on the rally website [www.rallyracc.com](http://www.rallyracc.com) under the section "Documents/Forms".
