## 1 INTRODUCTION

### 1.1 WELCOME

Welcome back to Latvia and our beloved rally city Liepāja. The summer is approaching and, as we have been used for some time now, it is time for a blistering high-speed chase around the gravel surface special stages of *Tet Rally Liepāja*. And in 2023, let us meet on June 16-18, a week before Midsummer celebrations.

This will be the most widespread rally we have ever organised. Alongside Liepāja and Talsi, in 2023 we greet newcomer Tukums, as well as returning Kuldīga to form an exhilarating rally we have in mind for you.

The rally route will stretch all over Latvian historic region of Kurzeme – Saturday stages will take place in Tukums in the East, then move to Talsi in the Northeast, switch to Kuldīga in the very middle, before heading back to Liepāja – our seaside rally city on the coast of the Baltic Sea. Meanwhile Sunday stages will run in a much-condensed territory around Liepāja, covering area of Southern Kurzeme. In total, 10 special stages with itinerary lightly surpassing 180 kilometres total.

*Tet Rally Liepāja* will host Round 4 of the 2023 FIA European Rally Championship, as well as round 2 of the 2023 FIA Junior ERC Championship. What is more, throughout both days of the rally, *Latvian Rally Championship* crews, competing with rally cars in compliance with international technical regulations, will join the fray to compete alongside the fastest competitors of the European championship.

The rally week will once again begin with extensive testing by competitors – the official test sessions will be organised on Wednesday in Talsi region. Though, there will be options for private test sessions on Tuesday and Wednesday as well. *Tet Rally Liepāja* Rally HQ will be housed at the well-known *Liepāja Olympic Centre*. What is completely new – we do have a new service park area that will be located just on shore of the Lake Liepāja. Reconnaissance is scheduled for Thursday and Friday, with the latter one giving room for Qualifying stage that shall be followed by the Start position selection process. Importantly, the Opening ceremony and Prize giving will relocate to parking lot next to glamorous concert hall *Great Amber*, a location few of you might remember. Keep in mind that the administrative checks will be done as soon as you submit your entry – please, let us do all the work timely and beforehand to make sure that once at Rally HQ it requires as little time as possible to complete all the formalities and receive all the materials and tracking devices.

And finally, *Tet Rally Liepāja* is proud to have received a One-Star rating within the FIA Action for Environment framework established by the FIA to address issues of environmental sustainability. While the work never stops, and we have our eyes set on a Three-Star rating. And thus, let us all continue our involvement to protect the environment and our efforts to establish a sustainable *Tet Rally Liepāja*. Let us think, plan, and carry our actions in a smart way – so that our everyday whereabouts not only during the rally, but also before and after the rally, are carried out in a way with the least possible negative impact on the Earth, the place we are all living. Let it stay green, safe, and beautiful.

Let us have fun, and enjoy Tukums, Talsi, Kuldīga, our rally city Liepāja, and host country Latvia!

**Raimonds Strokšs, RA Events director**

*P.S. And yes, we are set to join the FIA World Rally Championship in 2024!*

# TET RALLY LIEPĀJA

**Tet Rally Liepāja is proud to have received a One-Star rating in 2021, and is continuing its work and is striving for the highest level Three-Star rating in the next couple of years.**

The FIA Action for Environment framework is established by the Fédération Internationale de l'Automobile (FIA) to address issues of environmental sustainability and further promotion towards global future goals in terms of **REDUCED** consumption of resources and generation of waste, wider usage of **REUSABLE** products, as well as increased attention to **RECYCLING** of otherwise useless things and resources.

## **Tet Rally Liepāja – sustainable event with care for future generations**

For more than 10 years **RA Events – the organiser of Tet Rally Liepāja** – has been arranging various motorsport competitions in Latvia. *RA Events* strives to achieve the highest level of quality in each of its projects, serving as an example of good practice for others as well. *RA Events* follows global topicalities and FIA Purpose Driven initiative and has joined FIA Environmental Accreditation programme in order to continue our care for future generations and pay increased attention to environmental sustainability.

The goal of the Tet Rally Liepāja Sustainability Program is to reduce the negative impact on the environment by inviting all parties involved to think about the long-term future, by making responsible decisions and acting sustainably today. In order to implement this, it is necessary to be aware of, measure and control the impact of each process and activity on the environment, therefore, the rally organiser will encourage the rally competitors, media, staff, fans, as well as cooperation partners and suppliers to think about environmental protection and sustainability.

## **Tet Rally Liepāja calls for the following activities:**

- 1. Travel responsibly** – optimize transport, accommodation and travel costs;
- 2. Treat with respect to other property**, the urban environment and local people;
- 3. Do not pollute the environment** – reduce the amount of waste, choose recyclable products, collect waste;
- 4. Sort waste** – where possible, use waste sorting bins, always keep in mind: reduce, reuse, recycle;
- 5. Reduce the amount of used resources** – to reduce the consumption of water, energy, fuel and electricity, waste and printing materials;
- 6. Be socially responsible** – attract employees from local regions, make the event accessible to people with disabilities;
- 7. Make responsible choices for sustainable living** – choose environmentally friendly products, reducing their ecological footprint and impact on the environment.

Tet Rally Liepāja encourages to think about environmental issues not only during the rally, but also on a daily basis – by evaluating the daily habits, there is an opportunity to reduce the negative impact on the environment.

The Tet Rally Liepāja team is convinced that by making the right choices today, the chance for the sustainable future is given.

*Clean Venue Policy* is employed by the rally organiser and we ask the same level of cooperation from all competitors. Please be aware that there will be separate waste containers located at the service parks, and we encourage you to sort your waste. Please get familiar with all the options upon arrival, and make necessary adjustments at your team's facility. The same concerns your service area, please, leave it in a condition you have received it – move all trash to bins, and un-needed car parts, oil, and used tires to containers / space especially envisioned for that purpose.

### 5.3 FACILITIES PROVIDED

Technical water will be provided for competitors free of charge.

### 5.4 SERVICE PARK ACCESS

A limitation for servicing, refuelling and changes of mechanical parts is introduced in FIA RRSR. Services B, C, D, E, and F can be accessed only with service vehicle (SERVICE plate), while Remote Service Area A can be accessed only with light service vehicles (REMOTE SERVICE AREA plate) – up to 6t weight and 8m length.

Auxiliary or light service vehicles with stickers (REMOTE SERVICE AREA) are not allowed to enter in the main Service Park Liepāja. These vehicles will access the main service area only before start of the rally just for loading operations.

### 5.5 AREA AND UTILITIES

## 24 RALLY CITY – LIEPĀJA

**Liepāja - perfect place to live, work and fulfil yourself!**

Liepāja is a modern and contemporary 21st century city with a global presence, proven not only by the wide diversity of international sports competitions, national and international artists, but also by the modern and innovative companies and services they deliver.

The only constant is the aspiration of the

Liepāja locals to achieve more and better. The reason for this boom is simple - Liepāja is easy going and accessible, meaning that people living here can enjoy being more informal and creative in all their expressions. True, sometimes Liepāja residents might act outright and rebelliously, but that's only in the sense that they are never completely satisfied with themselves, constantly challenging their own and others' expectations and opinions in order to reach even better results. But at the heart of it all is the city's unique urban environment - everything has been thought through, and the Windy City is the perfect place to live, work and fulfil yourself.

The environment and mentality that Liepāja offers helps you to cleanse your mind, develop and come up with new thoughts and ideas. Whether these ideas are grand, with the potential to change the world, or more personal, with the potential to brighten your day.

This is a place where people can have a breath of fresh air, look at things from a different perspective, recharge, experiment and create something new.

### **Unforgettable holidays in the most charming city in the Baltics - Liepāja!**

What is this unique city phenomenon? The binding element is the wind, something Liepāja has been known for years. But it's not just a physical phenomenon that makes you want to create something extraordinary and constantly breathe new life into something new. It's also a mentality that challenges us to always adapt, rebel and approach things from an outside-the-box point of view. And to stubbornly see things through to the end, not just to revolt for the sake of revolting. Don't believe us? See for yourself! Come to Liepāja! Only then will you understand Liepāja! Experience it for yourself. Feel it for yourself. Immerse yourself. And, of course, fall in love. Come in! And do not forget it ever again. Liepāja.

Liepāja has its own special charm and aura that urges you to let the wind breeze through - to enjoy, feel, create and simply take a breath away from the humdrum

Be inspired and enjoy a cultural journey in the best concert hall of the Baltics! The symbol of Liepāja's cultural life is the concert hall "Great Amber", a gem not only for Liepāja and Kurzeme, but for the entire Latvia and the Baltics. An average of 60 artists from all over the world perform in Liepāja during the year.

Likewise, enjoy theatre performances in the oldest theatre in Latvia - Liepāja Theatre, visit Liepāja Museum or be inspired by

Liepāja Symphony Orchestra concerts. The new open-air concert stage "Pūt, vējiņi!" had joined the "family" of cultural establishments of the city.

### Liepāja - the birthplace of young sports talents!

Liepāja's sports infrastructure provides a perfect training base for professional athletes and platform for national and international competitions. Liepāja has 8 children's sports schools, 5 outdoor stadiums, 3 high-level outdoor basketball courts, the Olympic Centre Tennis Hall, Athletic Arena, Swimming Pool and SPA, Ice-Hockey Hall. There are around 80 different sports clubs and associations. Every year, residents of Liepāja participate in at least 50 world and European level sport events. The city regularly hosts traditional sporting events – the European Rally Championship "Tet Rally Liepāja", World and European Basketball Championships, international windsurfing competitions. Liepāja is the first city to have been awarded the title of European Capital of Sport.

Liepāja is home to the only diving school in the Baltics. The hometown of US NBA basketball star and "unicorn" Kristaps Porziņģis (New York Knicks, Dallas Mavericks, and Washington Wizards), Liepāja has three NBA-standard basketball courts, all presented to the city by Kristaps and his family. Anastasija Sevastova, one of the world's top tennis players, is also a frequent guest in Liepāja, the city of her childhood.

**Experience the whitest sandy beach in the world Liepāja prided itself on its beach - completely natural, uncrowded, covered with the finest and whitest sand.**

After storms, you can often find larger or smaller pieces of amber washed ashore with seaweed and shells. Liepāja's trademark is the wind - it defines both the city and its people. Wind and storms paint the city's features and let you admire it anew day after day. The wind teaches us, chases us and makes us stronger. Liepāja's beach strip is 50-80 metres wide, 8 kilometres long. The Blue Flag for exceptionally clean swimming areas is a self-evident recognition of Liepāja's seashore. The beach sand is particularly fine and white. Liepāja beach is the first accessible beach in Latvia for people with visual and mobility impairments - special audio

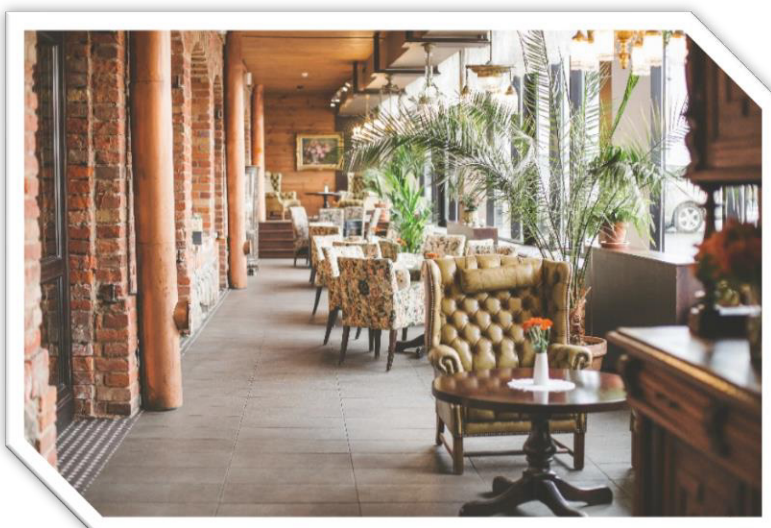

buoys, swimming wheelchairs, comfortable and wide boardwalks to get to the sea. The highest waves are in December - 0.9 metres, the lowest in April and May - 0.5 metres.

### Take a break from the city bustle and unwind in the Karosta!

The environment and mentality of Liepāja helps you to clear your mind, thrive and come up with new thoughts and ideas. Take a walk along the seafront or lakeside. "Steam down", have a look at things from a different perspective, recharge, experiment and create something new.

**Smart choice for conferences and seminars** Liepāja offers the perfect venue and service for large corporate events, seminars and conferences. There is also a wide range of accommodation and catering facilities. In total, Liepāja can accommodate more than 6 400 guests for various corporate events.

**Enjoy a treat at the charming and romantic Liepāja cafés** Liepāja is rich in flavours and ambience, with a selection of charming restaurants and cafés. Liepāja has plenty of gourmets and lovers of fine cuisine, so you can enjoy dishes from all over the world. In total, there are 18 restaurants, 40 cafés, pubs, bistros and summer cafés in the Windy City. Liepāja's special dish is "Liepājas mencīņi" – Liepāja's official speciality, made from smoked codfish, potatoes and onions according to an ancient recipe from South Kurzeme. Liepāja is the only place in the world where you can taste this dish.

**Book a stay in a stylish hotel!** Liepāja is home to a fantastic array of hotels, from a five-star hotel right on the Promenade, to classically business-style and custom-designed hotels in old industrial buildings. There are 15 hotels, 10 guesthouses, youth hostels and campsites, as well as countless private apartments where you can soak up the perfect atmosphere. On average 160 various events every month Liepāja is the cultural capital of Latvia and European Capital of Culture 2027 - it has a strong and rich cultural tradition, a wide and varied range of modern entertainment, a high quality and comprehensive cultural offer, artists from all over the world, and plenty of opportunities for everyone to become involved in shaping Liepāja's cultural life. On average, Liepāja hosts around 160 different events per month, offering enough to suit everyone's interests.

## 25 TUKUMS MUNICIPALITY

Every Latvian traveller knows and repeats the saying “Discover the beauty in Tukums!” or “*Uz Tukumu pēc smukuma!*”. No one knows exactly when or how the saying originated, but it has been known and recognised throughout Latvia for more than 100 years.

The answer to the question “Where is the beauty?” the most common answer is: “Come explore our area — it is so beautiful here! Small towns, in comparison with the capital, create a feeling of peace and safety. Castles, palaces and manor estates in the area — one prettier than the next. Beauty is manifested in nature — in river valleys and lakes, on sandy beaches, cultivated fields, forests and even in bogs. One week will not be enough to see it all!”

In Tukums, the centre of the municipality, small-town tranquillity meets the intensity of modern life. Alongside the quiet and serene visits to museums, you can also enjoy loud and fun events. Tukums boasts with age-old traditions of art and crafts. The first art museum outside Rīga was established here in 1935.

The area of Tukums surprises with its castles and manors. The architecture and interior of each of them are different. Jaunpils Castle and Šlokenbekas Manor will tell about the medieval and not-so-medieval times, Durbe Castle about the classical era, and Kukši, Rūmene and Kalnmuīža — about the everyday life in late 19th-century manor houses. Meanwhile, the newest of them all — the Jaunmokas Manor — not only boasts with eclectic architecture, but also tells about the riches of Latvian

forests.

The area of Jaunpils is a true medieval pearl. In the very centre of Jaunpils, the Jaunpils Castle, where knights once lived outside campaigns, stands tall and impenetrable. Those on a gourmet quest are tempted not only by the medieval dishes and dairy products — milk, cheese, creams and other treats, but also by the beer brewed in Jaunpils.

The Ancient Abava River Valley is one of the most remarkable ancient river valleys in Latvia. Its most beautiful stretch begins in the second largest town of the region — Kandava, known as the picturesque

pearl of the Abava Valley. Its cobblestone streets and illuminated lanterns welcome you to explore the ancient Couronian hillfort, to climb the Knights' Hillfort, to stand on the oldest in Latvia stone masonry bridge or to celebrate the Midsummer Festival in the shade of oak trees of the "Ozolāji" open-air stage. Here, on the walls of houses you will find poems talking about the beauty of Latvia. Once you've explored the town, you can continue along the most beautiful stretch of the Abava Valley, known as the Switzerland of Kurzeme, take a ride on the Swedish Cap toboggan and rope tracks, and indulge your taste buds at local taverns and the Kalnmuiža Castle restaurant.

For speed and adrenaline lovers, we definitely recommend visiting the Kandava Kartodrome, designed by the F1 racecourse architect Hermann Tilke, and enjoy go karting, because as the track owners admit: "Karting is basically like the start of any motorsport. No matter whether it is a rally or otherwise. Basically, everyone comes here and learns here. A lot of professional drivers who drive on other tracks still drive karts!" The reconstructed Kandava Agricultural

Technical School sports base with an open-air swimming pool and the famous 10-metre-high diving tower is also close by, at Teteriņš Lake.

As you travel around Latvia, you can often hear travellers exclaim: "Latvia is so beautiful!" Most often you hear this phrase as you travel on meandering roads, across hills and hillocks, along cultivated fields, past herds, catching a glimpse of beautiful gardens or vast fruit orchards on the roadsides. These roads will also be used for the one-day rallies this year. While visiting this area, you can stop by the biggest oak by circumference in the Baltic States — the Kaive oak, the most beautiful rose garden in Kurzeme "Rozītes", as well as the smallest farmhouses in the North Kurzeme farmstead at the Pastariņš Museum.

Only an hour's drive from Rīga will take you to the Kurzeme beach of the Gulf of Rīga. In this section of the road of nearly 60 km, travellers will be awaited by the quaint and peculiar fishing villages, where the old fishermen's huts are interspersed among modern summer houses, but sandy beaches are replaced by rocky shores. Here you can let your hair down and enjoy the white sand on the beach, breathe in the fresh marine air, feel the wind on a yacht, and have a taste of freshly smoked fish.

The small lagoon lakes of Engure and Kaņieris are a birdwatchers' paradise, while the Great Ķemeri Moor is a fascinating world of marshes. Trails here take you through swamps and forests of different colours. You can even walk these barefooted. All you have to do is set aside time to relax in nature.

After travelling, you should definitely eat out at local eateries and restaurants. Perhaps a special surprise in Tukums will be the discovery that there is more than one local wine tasting tour, grown and created from local grapes.

# KULDĪGA

*municipality*

There are many convincing reasons to visit the almost 800-year-old Latvian town with charming wooden architecture and exciting restaurant culture.

This picturesque small town with a well-preserved historical center is a well-kept secret. The town takes pride not only in the majestic **bridge** built across the **Venta River** in 1874, which is one of the longest vaulted brick bridges in Europe, but also in the 249-meter-long **Ventas Rumba** (Venta Falls), is known as the widest natural **waterfall** in Europe.

Thanks to the Alekšupīte stream winding through its historical center and lapping up against the foundations of many buildings, Kuldīga sometimes is referred to as the Venice of Latvia, setting it apart from other towns in the country.

Kuldīga is the golden city of Duke Jacob. The pearl of Courland. An old city of the Hanseatic League. The Venice of Latvia. The town of doors and roof tiles. From ancient times till today, all these words have dedicated to Kuldīga - one of the oldest and most beautiful small towns in Latvia.
