The Private E.M.S of choice will be Netcare911 and Provincial service will be Nelspruit and Sabie E.M.S. All the services will be notified of the above mentioned event, to make necessary arrangements. Contact person for Netcare911 is Nico Louw 082 468 4326.

These services will be called in to transport any Priority 2 or 3 patients generated from the Rally. This will ensure that dedicated resources remain at the venue. The dedicated resources will only leave the venue with critical, (Priority 1) patients. Netcare911's closest resources are situated in Nelspruit. The closest Ambulance service is the local authority situated in Graskop and Sabie.

HOSPITALS:

The nearest most appropriate Provincial facility is Rob Ferreria Hospital in Nelspruit. There is a provincial facility in Sabie, but I do not think it is suitable for motorsport injuries. Indigent spectators will be transported to these two hospitals.

The nearest most appropriate level 1 Private Hospital is the Medi-Clinic in Nelspruit. All patients will be referred to this hospital. Graskop is 100km from Nelspruit, Sabie is 70km and White River is 20 km. The Medi-clinic has been notified of the Rally and will be on standby. Paramedics on scene will phone the casualty directly and notify them of any patients.

AIR SUPPORT:

Red Cross is the only Medical Air evacuation service in Nelspruit. The helicopter is a single engine machine and is based in Nelspruit. The contact is Marc McJanet 084 651 3816.

Red Cross has been notified of the event and will be on standby for the duration of the event.

J.O.C / V.O.C:

Race control will be based at the start (Sabie) and finish (Nelspruit). The C.O.C. will control the event.

This person will be in contact with all the medical personnel on site. He will be responsible for dispatching the medical staff to all medical calls.

COMMUNICATION:

The medics will be issued with UHF 2 way radios. A radio marshal will be strategically positioned in the response car with the CMO. The C.O.C in the V.O.C / race control will have a radio and will dispatch the medical staff.

A full contact list of all medical staff will be with the C.OC. as a back up.

In a Mass casualty incident, the V.O.C will work together with the National Call centres, situated in Midrand. All operational vehicles will be controlled and dispatched from Midrand.

NOTIFICATION OF A MEDICAL EMERGENCY:

In the event of a medical emergency it will be reported to the C.O.C. via radio, cell phone, by a member of the public or security.

The location and priority of the call will be given to the C.O.C.

The nearest "on-site" Medical vehicle will be dispatched to the scene and the patient will be treated, immediately on scene.

The medic on scene will determine the severity of the patient. The patient will be treated in the vehicle and depending on his/hers condition either discharged or be transported to the nearest most appropriate facility. P1 will be transported by air and P2, P3 patients by road. Netcare911 will be the Private Ambulance of choice, from Nelspruit.

The "on-site" medic will liaise with the receiving hospital, namely Nelspruit Medi-Clinic.

All minor injuries will be managed on scene or transported to Hospital but this will be left to the discretion of the treating medic. (All the above Hospitals will be notified of this event.) All critical / priority 1 patients will be transported by the closest operational Ambulance or Helicopter. Priority 2 and 3 patients will also be transported by either an Operational Private Ambulance or a Provincial Ambulance. (**To keep all dedicated resources on-site!**)

MASS CASUALTY INCIDENTS:

In the event of a Mass Casualty Incident the Senior Paramedic or CMO will move to the V.O.C. and will work closely with the other Role Players and the national control centers located in Midrand, Johannesburg. All local Authorities will be contacted, including Disaster Management, Nelspruit EMS and Fire Department and both Private and Provincial Ambulance services. The Provincial Service will take charge of the scene.

The most senior provincial representative will take charge and facilitate as an incident commander on the scene. This person will make all decisions regarding transportation, receiving hospitals etc...

Red Cross Air Ambulance will be called in to fly critical patients. The Helicopter landing zone will be decided in this week.

The other "on-site" Paramedics will create a "Staging Area" or "Triage Area." This area will conform to International Disaster management requirements, with enough access and egress points (Normally a parking lot). The Operational vehicles will then be dispatched and controlled through the national control center.

All injured patients will be moved to the "Triage area" to receive treatment and be transported to hospital. This will be determined by the severity of their injuries.

No emergency care providers will give information to the press or public. All press releases will be done through the venue/ organizer's P.R.O'S regarding emergencies and patients.
