1. WELCOME

You enjoyed it so much, we had to do it again!

These are the words that fill my heart with the greatest joy. Words that my dear friend and mentor, Mr. Rafael Cejudo, who left us last summer, would surely have loved to say back in 1991, but sadly could not. Today, however, as life gives us this moment, it has finally become real. I dedicate this to him because Córdoba has, at long last, firmly established itself in the European Rally Championship.

Reaching the goal is not the hardest part; staying at this level is even harder. Our objective was never to simply arrive and be part of it for a single season. We want to be present for many years in a championship we truly believe in. One whose impact is clearly demanded by fans and institutions alike. After many months of hard work, during this third week of April the time will come for the fans to take their dream place, so that this dream-turned-reality continues to live on over time.

In our second year as part of the FIA ERC, the Rally Sierra Morena has changed its name, now proudly including the Andalusia surname, as it should be. In fact, it bore this name in the past. Request from both the FIA and the promoter is the result of strong, coordinated work among the three institutions that fully and firmly support this event: the Honorable City Council of Córdoba, the Honorable Provincial Council, and the Regional Government of Andalusia (Junta de Andalucía). To them, I add all the municipalities that join us this year, now eight in total: Espiel, Montoro, Obejo, Pozoblanco, Villaharta, Villanueva de Córdoba, Villanueva del Rey, and Villaviciosa de Córdoba. They are, without a shade of doubt, the setting for the finest sporting event in our land.

Here and now, I reserve my most sincere words for those who are unquestionably the backbone of our rally: the fans from Córdoba, Andalusia, and all of Spain who fill our stages. Some doubted their behavior in the previous edition, but I personally trusted them to the end - and they proved it was worth every second. A gift like the one life has given us must be embraced and enjoyed, and I am completely certain they will continue to do so with maximum respect for the environment and strict following to the safety measures required by FIA ERC standards.

One more year, I hope this blessing I carry within me never fades away. All that remains is to say one final thing to each and every one of you...

Enjoy your Rally Sierra Morena!

20. LIST OF USEFUL FACTS AND SERVICES

20.1. CORDOBA

Córdoba is a city located in the autonomous community of Andalusia in southern Spain and serves as the capital of the Province of Córdoba. With a population of approximately 324,900 inhabitants as of 2024, it is the 12th-largest city in Spain and the third-largest city in Andalusia.

The city lies primarily on the right bank of the Guadalquivir River in the southern part of the Iberian Peninsula. Córdoba has a long and complex history: it was originally a Roman colony, later controlled by the Visigothic Kingdom in the sixth century, and conquered by Muslim forces in the eighth century.

Under Islamic rule, Córdoba became the capital of the Emirate and later the Caliphate of Córdoba, governed by the Umayyad dynasty. During the 10th century, the city developed into one of the most important cultural, scientific, and educational centres in Europe and is considered to have been the second-largest city on the continent at that time. Political instability in the early 11th century led to the collapse of the caliphate.

Following its Christian reconquest in 1236, Córdoba was incorporated into the Crown of Castile and became the head of the Kingdom of Córdoba. Today, the city's historic legacy is reflected in its exceptional architectural and cultural heritage.

Córdoba is internationally renowned for its Moorish architecture, particularly the Mezquita-Cathedral, which was designated a UNESCO World Heritage Site in 1984. The designation was later extended to include the entire historic centre of the city. The nearby archaeological site of Madinat al-Zahra is also recognized as a UNESCO World Heritage Site, while the Festival of the Patios has been inscribed as UNESCO Intangible Cultural Heritage.

20.2. CLIMATE CORDOBA

Córdoba has a continental Mediterranean climate with Atlantic influences. Winters are generally mild, although occasional frosts may occur due to the city's inland location. Summers are extremely hot, with significant daily temperature fluctuations. Maximum temperatures are among the highest in Europe, frequently exceeding 40°C and on some occasions surpassing 45°C. The average temperature in July and August is around 28°C. Rainfall is concentrated mainly in the colder months due to Atlantic weather

systems, with annual precipitation reaching approximately 600 mm and showing considerable year-to-year variability.

20.3. TIME ZONE

Spain operates in the Central European Time zone (CET, GMT+1). From the last Sunday in March to the last Sunday in October, daylight saving time (Central European Summer Time – CEST, GMT+2) is applied.

20.4. CURRENCY

The official currency of Spain is the Euro (€).
