1 INTRODUCTION AND WELCOME

Welcome to the WRC Vodafone Rally de Portugal!

We have reached our 59th edition and are preparing a programme designed to meet the expectations of the thousands of fans who follow us throughout the year, as well as the promoter and the teams.

The fifth round of the FIA World Rally Championship will take place in the Northern and Central regions of Portugal from May 7 to 10. The rally's operational base remains at Exponor, in Matosinhos, where rally headquarters, manufacturers and drivers will be located.

The WRC Vodafone Rally de Portugal counts towards the FIA World Rally Championship with Rally1 cars, as well as the WRC2 and WRC3 championships, and also the Junior WRC, which returns to our country.

A word of thanks to all the municipalities involved in the rally itinerary (Águeda, Albergaria-a-Velha, Amarante, Arganil, Cabeceiras de Basto, Coimbra, Fafe, Felgueiras, Figueira da Foz, Góis, Lousã, Lousada, Matosinhos, Mortágua, Paredes, Sever do Vouga and Vieira do Minho), as well as to the indispensable support of our sponsors – Turismo de Portugal, Turismo do Porto e Norte, Turismo do Centro, and Vodafone, BP, Hertz, Via Verde and KP World.

Special thanks also to the various entities responsible for ensuring the safety of the event, without whom it would not be possible to organize it: the GNR, PSP, Civil Protection, Firefighters and INEM, not forgetting other key partners essential to the organisation of this event – the Portuguese Environment Agency, IGEOE, Exponor, Brisa, Infraestruturas de Portugal and ACP Assistência.

The Automóvel Club de Portugal, as the organiser of the WRC Vodafone Rally de Portugal, holds the highest rating of three stars in the FIA Environmental Accreditation Programme, a distinction it has maintained since 2017.

As one of the largest national tourism and sporting events, due to its significant contribution to positioning Portugal as a tourist destination and to territorial cohesion, ACP's strong commitment to this rally also represents its contribution to society, as a promoter of events that help combat seasonality and regional isolation.

Carlos Barbosa
Chairman of the Organising Committee

5 SERVICE PARK

5.1 Information about the service park

The Service Park will be located in the Exponor Exhibition Centre, in Matosinhos, by the A28.

The address and GPS location details are as follows:

Exponor Feira Internacional do Porto
Av. Dr. António Macedo, 574 • 4454-515 Leça da Palmeira - Matosinhos
GPS: 41°11.972' N – 8°41.535 W

Manufacturer teams, WRC teams, and FIA support Championships teams will benefit from the FIA recommended area. Remaining competitors will be attributed an area of 80m².

For additional space please refer to point 5.3.

WRC Teams will be able to access the Service Park from 09.00 a.m. on Friday, 01st May, 2026. Should any team need to access the park before this or should they arrive at night, when normal access is closed, please contact the Rally Organisers, by e-mail service.park@acp.pt.

Service vehicles arriving at Service Park on Sunday, 11th May, in the morning, i.e., before teams have attended the administrative checks to get the corresponding documents and necessary vehicle plates, will be able to access the Park without a plate. From Tuesday, 3rd May, at 09.00h, all vehicles will have to be duly identified with the corresponding plates. From that moment on, there will be an exhaustive control in order to guarantee that all vehicles parked or trying to access the Service Park carry the necessary plate.

Trailers are not allowed to park inside the Service Park.

Only vehicles with “SP – Service Park” plate will be authorised to stay inside the Service Park.

5.2 Facilities at Service Park

- General Lighting in the whole Service Park
- Toilets for public use
- Waste containers – Selective waste collection
- Collection of: used oil tanks, brake fluid, polluted containers
- General security in the whole Service Park
- Spare parts and wheels washing area

Additional services may be provided to teams in the service area upon request. Information on costs of these services will be provided upon reservation. Teams requiring these services are requested to complete the Service Park Application Form. This form will be available on the rally website www.rallydeportugal.pt under the section “Competitors/Docs”.

Additional services are the following:

- Chemical Toilet for the team’s private use
- Water
- Power
- Motorhome / Hospitality Unit liquid waste
- Chemical Toilet cleaning
- Exclusive security service for the team
- Rental of Forklifts, Generators and Cherry pickers

5.3 Space Requests

Teams that, due to logistics, need to stay together or have any special request must send them by e-mail to service.park@acp.pt. The Organiser will make all reasonable efforts in order to satisfy the needs of all Teams. Additional space requests, when available, are subject to a fee whose amount shall be indicated directly to interested parties.

To request additional services and/or spaces please complete the forms at the end of this Rally Guide.

Forms must be sent until 20th April 2026.

No further changes will be accepted after this date, once the layout of the Service Park has been declared as definitive.

5.4 Service Park Contents

- TC in / TC out
- Parc fermé
- Technical zone
- Tyre marking zone
- Refuel area
- Emergency services: fire brigade, medical centre, etc.

6 ON BOARD CAMERA (OBC) REGISTRATION

The competitor of any car which carries an on-board camera must have the prior agreement of the Promoter. Authorised cameras will be identified by an adhesive decal and must be mounted in the car at the time of scrutineering. The fixings of the camera and camera recorder must comply with the 2026 FIA International Sporting Code, Appendix J, Art.262.

Competitors wishing to use an on-board camera must apply via the WRC Accreditation Portal at least one week before the start of reconnaissance. Any requests presented after this date will not be considered therefore, the competitor will not be authorized to install an OBC on their car.

Those registering for an OBC for the first time should first use this link: <https://qrco.de/WRCOBCRegistration>

Those who have already applied for an OBC in the last 12 months should use their e-mail address to register via this link (no password required): <https://qrco.de/OBCForm2026>

An authorization sticker, which must be affixed to the car in the vicinity of the authorized camera prior to Scrutineering, must be obtained from the HQ when collecting documents and other materials.

Any contacts about OBC prior to the event should be addressed to Miguel Fonseca, miguel.fonseca@wrc.com

7 TWO-WAY RADIO

8 FUEL / TYRES

See Supplementary Regulations.

9 IMPORT OF VEHICLES AND SPARE PARTS

Competitors from the European Union do not need to make any special custom clearance for temporary import of cars and equipment for the purpose of participating in the 2026 Vodafone Rally de Portugal. Vehicles from outside the European Union must show their ATA (Admission Temporaire/Temporary Admission) carnet, which normally is applied for at the Chamber of Commerce in the country of origin.

10 HELICOPTERS

10.1 Registration Procedure

Complying to the requisites imposed by FIA on the safety and use of helicopters at the Rally, helicopters wishing to operate at the rally will have to register with the Organization. A protocol for controlling the restricted airspace over the SS's (Special Stages) prevents any unregistered helicopter of operating in that airspace. The registration fee for each helicopter is € 3000,00 +VAT. Registration deadline is the 01st of May 2026.

ACP – Automóvel Club de Portugal, as organiser of WRC Vodafone Rally de Portugal, is committed to the FIA Sustainability Programme and the FPAK Environmental Sustainability Code, with the aim of continuing to improve and minimise the environmental impact of the event and, as one of the WRC events that welcomes a large number of spectators, WRC Vodafone Rally de Portugal maintains its aim of being a benchmark in environmental issues, both nationally and internationally.

According to FIA Environmental Accreditation Programme, WRC Vodafone Rally de Portugal has been certified since 2017 with the Achievement of Excellence level and subsequently with the Three-Star Environmental Accreditation, the highest level of environmental sustainability recognition. In 2019, it was also recognised by the International Olympic Committee as the first motorsport success case for environmental sustainability.

To fulfil our objectives, we have established partnerships with Portuguese Environment Agency, all the municipalities involved in the event, environmental authorities and local waste management entities. We have also defined a programme to offset greenhouse gas emissions, and we promote actions to plant native species in the areas surrounding the event.

Therefore, WRC Vodafone Rally de Portugal, through its Environmental Management System, will be guided by the following principles:

- Comply with applicable environmental legislation, as well as other obligations voluntarily assumed, including the FIA Environmental Accreditation Programme and the FPAK Environmental Sustainability Code;
- Inform and train everyone involved in the organisation about its environmental policy;
- Promote environmental awareness among our stakeholders (organisation, drivers, teams, volunteers, media, spectators, partners and external suppliers) and encourage them to fulfil and enforce good environmental practices;
- Take into account the environmental impact when choosing partners and suppliers, as well as in the process of selecting and purchasing products and services;
- Reduce the environmental impact in terms of transportation, as far as possible, encouraging carpooling and car sharing, as well as the use of public transport;
- Promote responsibility in preserving the environment by managing and monitoring the direct and indirect impacts of the event, in particular energy consumption and associated greenhouse gas emissions, water consumption and other natural resources, and proper waste management;
- Encourage adequate and proactive management of environmental risk, in particular pollution prevention and emergency response to accidents and/or disasters;
- Promote the continuous improvement of processes, practices and environmental developments by defining and evaluating progressively more ambitious environmental objectives.

This Environmental Policy, supported by a strong “performance against objectives” attitude, will regularly be reviewed and updated, ensuring continuous improvement of the entire Environmental Management System.
