## 1. INTRODUCTION - WELCOME

Following last year's 55th Acropolis Rally and only a few days before the first WRC round of 2009, a lot has happened in Greece, across the world, as well as in the structure and operation of the WRC. The global economic crisis is affecting our lives, making us more sceptical and more cautious of our future choices and decisions.

What has not been affected and must not change is the desire and constant effort to improve our quality of life. Keeping this goal in mind, the Organisers of the Acropolis Rally are persistently improving, modifying and finding alternative ways to organise one of the most classical rounds of the World Rally Championship. Every year we wish to bring-in elements and choices that will make the Acropolis Rally more interesting for everyone involved. More challenging and fast for our competitors, yet spectacular and easy to follow for the thousands of guest spectators, as well as the millions of TV viewers.

It is for this reason, that immediately after the conclusion of the 55th Acropolis Rally, the Organisers declared a contest between five candidate-cities that could host next year's event. The town of Loutraki was finally chosen, giving the option-among other things, to use several special stages in the region of the Peloponnese. A region of Greece, that in the 1980's hosted some of the most well-known and reputable special stages of the WRC.

The town of Loutraki will host the Rally Headquarters, as well as the Media Centre and the Service Park. However, during the first day of the event, competitors will move north towards some already familiar and respectable stages, but yet quite far from the main Service Park, therefore a Remote Service Zone will be organised in the town of Itea (an area known from previous Acropolis Rallies). This choice was essential in order for the thousands of fans of the Acropolis Rally, to spectate their favourite crews in special stages like Evangelistria, Bauxites, and Drossohori!

Rest assured that we, the Organisers of the Acropolis Rally, the Mayor, the Local Council and the people of the town of Loutraki will do our best to accommodate you in a region that embraces all the essentials of a Greek holiday destination, during a time of year when the Greek weather and sea are at their very best!

As always, we remain at your disposal for any further information you may need, and we look forward to welcoming you to the 56th Acropolis Rally!

The Organising Committee

### 9.2 ACCREDITATION PRINCIPLES

Editors of publications are asked to conform to the following principles to ensure that media accreditation is restricted to professional journalists and photographers.

1. The FIA considers the "Media" pass to be a working tool to be used only by bona fide members of the press. Publishers, marketing personnel, sub-editors, staff of the publication's secretariat, etc. cannot be accredited as Media.
2. **The FIA only accredits publications:**
  - a) with a minimum circulation whose size and quality fulfil the criteria of the FIA
  - b) with a format and quality which fulfil the criteria of the FIA
  - c) which are on sale to the public via retail outlets (trade, club or internal company magazines will normally not be accredited). However, at the sole discretion of the FIA, and where the quality and circulation criteria justify their consideration, such magazines may be eligible for accreditation on a case by case basis.
3. **TV and radio, websites and other electronic media must send their application to:**  
 ISC Accreditation Service  
 Maynard House, 46-52 Pentonville Road, London N1 9HF, Great Britain  
 Tel (+44) 20 7584 7584/ Fax (+44) 20 7502 5621
4. Under no circumstances will advertising, public relations agencies or similar companies and organisations be accredited as media, nor will the Organisers issue any accreditation to representatives (press officers or otherwise) of sponsors, suppliers, engine suppliers, teams, drivers, etc.
5. The FIA WRC Media Delegate may accept requests from teams with seeded drivers for the accreditation of press personnel, with a maximum of one person per team.
6. The FIA will only accredit press from outside the country in which the event is held. National press must apply to the National Press Officer (e.g. Greek press applying for the Acropolis Rally of Greece should apply to the National Press Officer, while press from countries other than Greece should apply to the FIA).
7. FIA Permanent Credential Holders requesting a Substitute and/or an Additional Pass must apply to the FIA.
8. The central and local offices of the major international press agencies (AP, AFP, Reuters, ANSA, UPI, DPA, LUSA, BELGA, JIJI, KYODO, EFE, Press Association, SAPA, Australian AP, APA, etc.) will always be accredited by the FIA.

### ACCREDITATION CRITERIA

The FIA will allocate annual permanent Media accreditation to publications intending to publish reports for every FIA World Rally Championship event during the season.

Press passes can also be allocated on a rally-by-rally basis to general news, specialist, business and lifestyle consumer publications that do not intend to publish conventional rally reports but whose coverage is considered to be of promotional benefit to the sport.

Exceptionally, a maximum of three representatives (journalists and/or photographers) per publication may be accredited for any one round of the FIA World Rally Championship. Agencies are subject to the same requirements as publications.

All applicants must fulfil the following basic criteria:

- **Coverage**

For a daily newspaper, a substantial amount of coverage for each event is required. For example, an introductory article in the Thursday edition, follow-up articles in Friday, Saturday and, where applicable, Sunday editions, plus a rally report in the Monday edition.

For a weekly or monthly publication, a substantial amount of coverage for each event is required and a major portion of the overall content should be on the subject of WRC.

- **Quality**

The highest standards of fairness and accuracy are expected as a minimum quality requirement from the press.

- **Circulation**

Accreditation decisions are based on the relative 'media market' in the country of the applicant. As such, the usual minimum circulation for a national weekly or monthly publication is 20,000 copies. For a national daily the minimum circulation is 50,000 copies.

Freelance journalists must apply for credentials via their own agencies. The onus is on the freelance applicant to prove the supply of regular stories to at least five publications.

Photo agencies must be able to prove that the pictures have been regularly sold to publications matching the FIA criteria and have been paid for at the normal commercial rate. A publication must be able to prove that the pictures published are the original work of the publication's accredited photographer.

### **RALLY-BY-RALLY ACCREDITATION PROCEDURE**

For rally-by-rally passes, the FIA will only accredit press from outside the country in which the event is held. National publications must apply via the event's national press office. National publications which are accredited on a permanent basis and wish to apply for additional or substitute passes must apply directly to the FIA.

Applicants must submit sample proofs of coverage to the FIA Communications Department at the latest three weeks prior to the first day of the event, that is **May 20**.

Publications or agencies applying for a rally-by-rally photographer accreditation must supply evidence of independent coverage of a minimum of 15 pictures per pass issued at each event they have been accredited for in the previous year's Championship. The number of international press photographer passes will usually not exceed 30 at each event.

The number of national "press photographer" passes will not exceed 12 at each event.

Promotional photographers for teams, sponsors, etc. who do not comply with the above criteria may apply for accreditation to ISC (address below).

Accreditation decisions are made by the FIA WRC Media Delegate and Photographers' Delegate according to the following procedures:

1. Applications must be received at least three weeks (May 20) prior to the first day of the relevant event and should be sent by registered post to the following address:

**FIA Communications Department, Accreditation Unit (WRC)**

**8, Place de la Concorde, 75008 Paris, France**

- 1a. Requests from national Press representatives must be sent by post to the Organiser the latest **May 13 2009**.

2. Applications which are late, incomplete, or sent by fax may not be considered.

3. Requests must be sent with the accreditation form and a formal application letter written on the publication's letterhead. This letter must be signed by the editor or a senior member of the editorial staff. Requests signed by clerical staff will not be accepted.

This letter must include:

- a) the name(s) of the representative(s) who will be covering the event(s);
- b) the photocopy of the official national press card(s) (where applicable) of the representative(s) who will be covering the event(s);
- c) the job title(s) of the representative(s) (journalist(s) and/or photographer(s);
- d) information on the publication (such as circulation, readership, frequency, etc);
- e) an original copy of the publication;
- f) photocopies or originals of material published following previous FIA World Rally Championship events;
- g) a contact fax number;
- h) a formal undertaking from the editor to publish a report related to the event concerned and an indication as to when this report will be published;
- i) an identity photo in electronic format (\*jpeg or \*tif) of the representative must be sent to the Accreditation Unit (WRC) to the following email address: **worldrally@fiacommunications.com**

**Important:** The subject must be filled in as follows: Name of the Rally - Name of the Publication - Name of the Representative

**Note:** 'd', 'e' and 'h' do not apply to the major international press agencies.

4. The FIA will fax or email the result of the application to the publication. If successful, an agreement will be included for signature by the editor of the publication.  
If the representative(s) is (are) unable to attend the event, the FIA Communications Department must be notified as early as possible before the opening of the accreditation centre.  
If a change of representative(s) is to be made, please notify the FIA Communications Department as early as possible.
5. The representative(s) must produce the signed agreement which is sent with the confirmation when collecting the credential at the event. **NO ACCREDITATION CAN BE COLLECTED WITHOUT THIS DOCUMENT.**
6. The application for a press pass must include written confirmation that the publication/agency or the journalist/photographer to whom the credential has been allocated has not applied or will not apply for additional FIA passes for any other purposes, including journalism for Television and Radio networks.

If a decision is disputed an individual application will be referred to the Director of Communications for final approval. The FIA liaises closely with National Press Offices and National Sporting Authorities to confirm the validity of a given application.

Priority is given to publications intending to publish a report related to the event for which the accreditation is requested.
